3. BIR Tax Identification No **000-189-138-000**
4. Exact name of issuer as specified in its charter **Millennium Global Holdings, Inc.**
5. Province, country or other jurisdiction of incorporation or organization: **Metro Manila, Philippines**
6. Industry Classification Code: (SEC Use Only)
7. **Lot 9 Block 2, John St., Multinational Village, Paranaque City**
Address of issuer's office
8. Issuer's telephone number, including area code: **(632) 8551-2575**
9. **N/A**
Former name, former address and former fiscal year, if changed since last report
10. Securities registered pursuant to Sections 8 and 12 of the SRC, or Sections 4 and 8 of the RSA

Title of each Class	Number of shares of common stock outstanding and amount of debt outstanding
Common	2,369,684,619 shares

11. Are any or all of the securities listed on a Stock Exchange?

Yes ☒ No ☐

If yes, state the name of such Stock Exchange and the class/es of securities listed therein:

Philippine Stock Exchange; Common Shares

12. Indicate by check mark whether the registrant:

- (a) has filed all reports required to be filed by Section 17 of the SRC and SRC Rule 17.1 thereunder or Section 11 of the RSA and RSA Rule 11(a)-1 thereunder, and Sections 26 and 141 of the Corporation Code of the Philippines, during the preceding twelve (12) months (or for such shorter period the registrant was required to file such reports)

Yes ☒ No ☐

- (b) has been subject to such filing requirements for the past ninety (90) days.

Yes ☒ No ☐

13. State the aggregate market value of the voting stock held by non-affiliates of the registrant. The aggregate market value shall be computed by reference to the price at which the stock was sold, or the average bid and asked prices of such stock, as of a specified date within sixty (60) days prior to the date of filing. If a determination as to whether a particular person or entity is an affiliate cannot be made without involving unreasonable effort and expense, the aggregate market value of the common stock held by non-affiliates may be calculated on the basis of assumptions reasonable under the circumstances, provided the assumptions are set forth in this Form. (See definition of "affiliate" in "Annex B").

The aggregate market value of the voting stock held by non-affiliates of the Company as of December 31, 2022 is Php136,648,269.534(1,198,669,031shares @ Php0.114/share)

**APPLICABLE ONLY TO ISSUERS INVOLVED IN
INSOLVENCY/SUSPENSION OF PAYMENTS PROCEEDINGS
DURING THE PRECEDING FIVE YEARS:**

14. Check whether the issuer has filed all documents and reports required to be filed by Section 17 of the Code subsequent to the distribution of securities under a plan confirmed by a court or the Commission.

Yes ☐ No ☐ (N/A)

DOCUMENTS INCORPORATED BY REFERENCE

15. If any of the following documents are incorporated by reference, briefly describe them and identify the part of SEC Form 17-A into which the document is incorporated:

(a) Any annual report to security holders; (N/A)

(b) Any information statement filed pursuant to SRC Rule 20; (N/A)

(c) Any prospectus filed pursuant to SRC Rule 8.1. (N/A)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*Our discussions in the succeeding sections of this report pertain to the results of our company's operations for the twelve (12) months ended **December 31, 2022**. References are going to be made on results of operations for the same period of the previous year 2021.*

This report may also contain forward-looking statements that reflect our current views with respect to the company's future plans, events, operational performance, and desired results. These statements, by their very nature, contain substantial elements of risks and uncertainties, and therefore, may not be 100% accurate. Actual results may be different from our forecasts.

Furthermore, the information contained herein should be read in conjunction with the accompanying audited consolidated financial statements and related notes. Our financial statements, and the financial discussions below, have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

PART I. BUSINESS AND GENERAL INFORMATION

Millennium Global Holdings, Inc. (the "Company") was incorporated and registered with the Philippine Securities and Exchange Commission ("SEC") per SEC Registration No. 25160 on May 19, 1964. Currently a general holding company, it is listed in the Philippine Stock Exchange, Inc. (the "PSE") since March 1, 1976 with the ticker code MG.

In the recent years, the Company has established its presence through the seafood businesses of its subsidiaries. Nevertheless, it adopts a positive stance to portfolio diversification and varied business opportunities as the SEC on February 14, 2013 approved, among others, the amendment of its primary purpose to become a general holding company.

On February 1, 2017, the SEC approved the Company's application for decrease in authorized capital stock to ₱250 Million and equity restructuring. On March 20, 2017, the SEC further approved the equity restructuring to partially wipe out the remaining deficit as of December 31, 2015.

On December 18, 2020, the stockholders of the Company approved the change of the principal office of the Company to Lot 9 Block 2 John St., Multinational Village, Paranaque City.

Status of Operations

To date, the Company has two subsidiaries—the MOSC and C3.

The Company owns 51% controlling interest in MOSC. MOSC is primarily engaged in the processing of high-quality seafood and aquaculture products for export and trading of imported marine and other related products. Its key business activity is the processing and export of several quality and high valued seafood products such as Black Tiger Shrimps, Kisu (asohos) fillet, frozen lobsters, etc. Its processing plants and buying stations are strategically located all over the country, enabling it to have a strong market foothold in Japan, Taiwan, Hong Kong, Vietnam, Malaysia, Singapore, United States of America,

Canada, etc. MOSC also imports salmon, mackerel scad, scallops, shrimps, etc. for the local market, supplying supermarkets, groceries, food processors, hotels, and restaurants nationwide.

The Company also owns 51% stake in C3, with the intention of making it a 100%-owned subsidiary. To date, the Company's acquisition of the remaining 49% of C3, through purchase of secondary shares from existing shareholders of the Subsidiary, is yet to be completed. C3 is a domestic company engaged in the business of manufacturing, processing and dealing in pasteurized canned crabmeat, frozen marine products and other food products for export purposes. The raw crab meat which is the main material used in the business is locally sourced by C3.

Due to the COVID-19 pandemic, C3 regular operations were temporarily halted to save on costs and production was temporarily absorbed by MOSC. This irregularity may continue until such time that it is deemed appropriate to resume C3 regular operations.

Key Competitors

No key competitors are identifiable for the year 2022.

Principal Suppliers

No principal suppliers are identifiable for the year 2022.

Dependence on a Few or Single Customer

No key customer/s are identifiable for the year 2022.

Transaction with and/or Dependence on Related parties

As a result of the Asset Purchase Agreement executed on September 28, 2011, all Management Agreements and Related Parties were transferred to IPVI.

In 2013, the stockholders approved the investment in and/or acquisition of various businesses and operating companies, including 51% controlling interest in MOSC, majority-owned by the Company's Chairman and President, Yang Chi Jen. A Subscription Agreement acquiring 51% controlling interest in MOSC was consequently executed on January 10, 2014.

In 2014, the stockholders approved the issuance and listing of 9.125 Million shares at par value of Php1.00/share which were subscribed by the Company's Chairman/President and CEO, Yang Chi Jen.

In 2017, the Company made additional subscription to 117,091,837 primary shares of its subsidiary, MOSC, at par value of Php1.00 per share, to maintain the Company's 51% ownership in MOSC.

In 2017, Yang Chi Jen, subscribed to the remaining 365,785,000 unissued shares of the Company at Php0.20 per share, double the lowered par value of Php0.10 per share, equivalent to a total amount of Php73,157,000 with premium of Php36,578,500. The BOD likewise approved the subscription by Yang Chi Jen to at least 25% of the proposed increase in authorized capital stock of the Company at Php0.20 per share. The increase in authorized capital stock of the Company was initially pegged from

Php250,000,000 to Php750,000,000 but was later amended during the year to an amount as may be determined by the BOD but not exceeding Php10 Billion. This was approved by the stockholders on December 18, 2020.

On March 18, 2021, the members of the Board of Directors of approved the initial increase of the authorized capital stock of the Corporation from ₱250 Million to ₱750 Million, divided into 5,000,000,000 common shares at par value of ₱0.10/share. The transaction pertains to private placement through an increase in authorized capital stock subject to and effective upon the approval of the Securities and Exchange Commission. The 5,000,000,000 common shares shall be subscribed by Yang Chi Jen (Michael Yang) with subscription price per share of ₱0.20 and total subscription amount of ₱1,000,000,000. The proceeds of the transaction shall be invested by the Corporation in its subsidiary, Millennium Ocean Star Corporation (MOSC), for the purpose of supporting its operations and expanding its production lines for fish and meat canning, meat and seafoods processing, and sauces.

Effect of Existing or Probable Government Regulations on the Business

The government regulations affecting the Company have no significant or minimal impact on its business in 2019 and prior years. However, beginning 2020, amid the COVID-19 pandemic and compliance with the directives of the government to observe the rules on varying degrees of community quarantine, operations of subsidiaries were streamlined and kept at minimum to balance the health and safety of workers and employees.

Development Activities

The Company has not engaged in significant development activities in 2022.

Cost and Effects of Compliance with Environmental Laws

The Company is committed to complying with the relevant environmental laws and regulations. Its costs and effects have no significant impact on its business in 2022.

Employees

Beginning 2014, personnel support has been provided to the Company through its subsidiaries, MOSC and C3. The Company in the normal course of business will hire personnel, as needed, to support the businesses that it will undertake in the future. Furthermore, the Company complies with government prescribed labor standards.

Description of Properties

The Properties are comprised mostly of land, processing plants and equipment, machinery and delivery equipment owned by the Company's subsidiaries.

Submission of Matters to a Vote of Security Holders

On December 7, 2022, the stockholders of the Company representing 1,222,347,588 issued and outstanding shares, or 51.58% thereof, elected the following members of the Board of Directors for the ensuing year:

1. Yang Chi Jen (a.k.a Michael Yang)
2. Yeh Hsiu-Yin
3. Hsien-Tzu Yang 4. Willy O. Dizon
5. Maria Soledad C. Lim
6. Nancy T. Golpeo
7. Atty. Ernesto S. Go
8. Amelia T. Tan
9. Aracelli G. Co
10. Maria Luisa T. Wu (Independent)
11. Cristina Hiltrude L. Aganon (Independent)

On the said meeting, the following matters were approved and/or ratified by the stockholders:

1. Minutes of the previous Annual Stockholders' Meeting held on December 17, 2021;
2. Audited Financial Statements for the calendar year ended December 31, 2021, as contained in the Annual Report;
3. All prior acts and proceedings of the Board of Directors, Corporate Officers and Management;
4. Appointment of Valdes Abad & Company as External Auditor for the calendar year 2022

During the organizational meeting of the new Board following the stockholders' meeting, the following were duly elected:

Name	Positions
Yang Chi Jen a.k.a. Michael Yang	Chairman / President & CEO
Amelia T. Tan	Treasurer
Lyra Gracia Y. Lipae-Fabella	Corporate Secretary

The Board likewise approved the appointments of Atty. Lyra Gracia Y. Lipae-Fabella as Corporate Information Officer and Alternate Compliance Officer; Mr. Yang Chi Jen as Alternate Corporate Information Officer and Alternate Compliance Officer; and Ms. Janine G. Manzano as Compliance Officer and Alternate Corporate Information Officer.

Discussion on Financial Results

Assets

Total assets decreased by Php111 Million from Php2.193 Billion as of December 31, 2021 to Php2.081 Billion as of December 31, 2022. Comprising mainly of decrease in inventories of Php18.3 Million, decrease in property, plant and equipment of Php59.6 Million, increase cash of Php4.5 Million and decrease in trade and other receivables of Php43.4 Million.

Liabilities

The decrease in total liabilities by Php97.9 Million from Php1.514 Billion as of December 31, 2021 to Php1.417 Billion in December 31, 2022 was mainly due to the increase in borrowings by Php102.9 Million.

Equity

The total equity decreased by Php14 Million from Php678.9 Million as of December 31, 2021 to Php664.9 Million as of December 31, 2022.

Revenues

Total revenues increased by Php18.2 Million from Php981.1 Billion as of December 31, 2021 to Php999.3 Million as of December 31, 2022.

Finance cost of Php22.3 Million as of December 31, 2022 represents interest expense on borrowings of Php15.1 Million and finance lease of Php7.2 Million.

Additional details on balance sheet accounts may be found in the accompanying Notes to Financial Statements.

Expenses

Comparing the twelve (12) months ended December 31, 2022 against twelve (12) months ended December 31, 2021, the top expenses in Peso terms are as follows:

- **Cost of Sales**

Total cost of sales for Php936 Million in 2022 represents cost of 94% of gross sales of

Php999.3 Million.

- **Salaries and Benefits**

Total salaries for 2022 amounted to Php4.2 Million which represents 9% of general and administrative expenses.

Below is the headcount summary for year ended December 2022 and proceeding four (4) quarters:

Headcount Summary	Dec.-21	Mar-22	Jun-22	Sep-22	Dec.-22
MGHI	-	-	-	-	-
MOSC					
Managerial	11	11	11	11	11
Rank and File	353	353	350	354	357
Consultants	-	-	-	-	-
C3					
Managerial	0	0	0	0	0
Rank and File	0	0	0	0	0
Consultants					
Total	364	364	361	367	368

- **Taxes and licenses** for the year 2022 amounted to Php13.2 Million. This accounts for about 29% of the group's total operating expenses.
- **Transportation and travel** for the year 2021 amounted to Php.38 Million. This accounts for about 1% of groups' total operating expenses. For the year 2021 it amounted to Php.37 Million.

Liquidity and Capital Resources

The following table shows our consolidated cash flows as of December 31, 2022 and 2021:

Consolidated Cash Flows	For the 12 Months Ended		Increase (Decrease)	
	2022	2021	Amount	%
Net Cash from operating activities	200,432,946	(148,028,298)	348,461,244	(235.40%)
Net Cash from investing activities				
Due from related parties	(1,157,374)	6,901,313	(8,058,687)	(116.77%)
Acquisition of property & equipment	(59,000,001)	(87,225,609)	28,225,608	(32.36%)
Net Cash from Financing Activities	(135,760,524)	468,648,695	(604,409,219)	(128.97%)

Cash as of December 31, 2022 is Php395.4 Million as compared to Php390.9 Million on December 31, 2021. Cash increased by Php4.5 Million due to additional investment from proceeds of the deposits for future stock subscriptions.

Operating Activities

Total cash from operations in 2022 decreased by Php347.6 Million from an outflow of Php148 Million in 2021 to an inflow of Php199.6 Million in 2022. The decrease was mainly due to increased credit sales and decreased collection of receivables.

Investing Activities

Total net cash outflows from investing activities in 2022 of Php60.2 Million were from acquisition of property and equipment and advances to related parties.

Financing Activities

In 2021, the net cash outflow from financing activities was due to Php22 Million payment of finance cost and Php250 Million deposit for future stock subscriptions and Php255.3 Million proceeds from borrowings by MOSC.

In 2022, the net cash outflow from financing activities was due to Php22.3 Million payment of finance cost and Php102.9 Million proceeds from borrowings by MOSC.

Seasonal aspects that had a material effect on the financial condition or results of operations

There are no identifiable seasonal aspects that had a material effect on the financial condition or results of operations.

Requirements under SRC Rule 17 and 68.1

We have extensively disclosed the risks in this report and Financial Statements filed with the exchange.

Financial Risk Assessment

The Company and its operating subsidiaries face various categories and levels of risk. Inherent in all of the businesses is Counterparty risk, or the risk that clients may stop or delay payments of their service invoices, and that suppliers may fail to deliver the goods and services. Each company is addressing these issues through continuous dialogue with, and management of, the specific counterparty at risk. We do not see, at this point, that any failure on the part of our customers, our suppliers, or a group thereof, would materially affect the financial conditions and results of the company.

Currency Risk

During the period when the Peso was still strong, the company decided to hedge its net USD inflows with a foreign bank, by fixing the USD-Peso exchange rate until the end of the contract. Since then, the Peso has depreciated and we may see the USD to strengthen as the other economies are affected by the credit crisis, and inflows from OFW remittances may slow down.

Disclosure on Financial Instruments

The Company does not carry any market-based financial instruments, derivatives, and other similar products in their portfolios. Hence, the evaluation of these financial instruments, comparison to fair values and realization of gains or losses, criteria for determining fair values, are not applicable to the Company.

Aside from risks that are inherent in our businesses, such as risks from competitive forces and from the performance of business operations, we do not foresee any other trend, event or uncertainty that will have a material impact on our net sales and income from the continuing operations of our subsidiaries.

Any events that will trigger direct or contingent financial obligation, which is material to the company, including default or acceleration of an obligation.

We do not foresee any event that would trigger direct or contingent financial obligation, including default or acceleration of any obligation.

The Company's operations have since resumed and become regular after some temporary disruptions as a result of the community quarantines which the government imposed beginning March 17, 2020. Due to the COVID-19 pandemic, C3 regular operations were temporarily halted to save on costs and production was temporarily absorbed by MOSC. This irregularity may continue in the coming months until such time that it is deemed appropriate to resume C3 regular operations.

While the irregularity of operations due to COVID-19 pandemic is currently considered to be temporary, management anticipates that any significant or prolonged suspension of businesses and/or restrictions on the movement of workers will negatively impact the Group's financial condition and operations – specifically in its production and distribution channels.

All material off balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

There are no known material off balance sheet transactions, arrangements, obligations (including contingent obligations) and other relationships of the Company with unconsolidated entities or other persons created during the reporting period.

Any significant elements of income or loss that did not arise from the issuer's continuing operations.

The Company's operations have since resumed and become regular after some temporary disruptions as a result of the community quarantines which the government imposed beginning March 17, 2020. Due to the COVID-19 pandemic, C3 regular operations were temporarily halted to save on costs and production was temporarily absorbed by MOSC. This irregularity may continue until such time that it is deemed appropriate to resume C3 regular operations.

While the irregularity of operations due to COVID-19 pandemic is currently considered to be temporary, management anticipates that any significant or prolonged suspension of businesses and/or restrictions on the movement of workers will negatively impact the Group's financial condition and operations – specifically in its production and distribution channels.

Issuances, repurchases, and repayments of debt and equity securities.

There are no significant issuances, repurchases, and repayments of debt and equity securities during the period.

Notably, pursuant to the approval of the stockholders on December 18, 2020, the members of the Board of Directors of the Company approved on March 18, 2021 the initial increase of the authorized capital stock of the Corporation from P250 Million to P750 Million, divided into 5,000,000,000 common shares at par value of P0.10/share. The shares shall be subscribed at P0.20/share by Yang Chi Jin (a.k.a. Michael Yang), the Company's Chairman/President and CEO and controlling shareholder of subsidiary, MOSC. The proceeds of the transaction shall be invested in MOSC for the purpose of supporting its operations and expanding its production lines for fish and meat canning, meat and seafoods processing, and sauces. The increase in authorized capital stock is subject to the approval of the SEC and the issuance of the subject shares shall only be effective upon said approval.

Any change in the composition of the issuer during the interim period, including business combinations, acquisition or disposal of subsidiaries and long-term investments, restructuring, and discontinuing operations.

There are no significant changes in the composition of the issuer during the period.

Changes in contingent liabilities or contingent assets since the last annual balance sheet date.

There are no material changes in contingent liabilities or assets since the last annual balance sheet.

Disclosures not made under SEC Form 17-C.

All disclosures made under SEC Form 17-C have been filed during the period.

Other subsequent events disclosed under SEC Form 17-C.

There are no other subsequent events disclosed under SEC Form 17-C.

PART III. SECURITIES OF THE REGISTRANT

(A) Market Price of and Dividends on Registrant's Common Equity and Related Stockholder Matters:

TOTAL SHARES (REST OF STOCKHOLDERS)			4,981,990	0.18%
TOTAL ISSUED AND OUTSTANDING SHARES			2,369,684,619	100%

As of December 31, 2022, the Company has a total outstanding common stock of **2,369,684,619** shares, held by 745 individuals and/or corporate stockholders. The top twenty (20) stockholders, their respective number of shares held, and the corresponding percentage of these shares out of the total shares outstanding, are as follows:

The total number of shares held by the top 20 shareholders at 2,364,702,629 represents 99.82% of the company's total outstanding stock.

3. Dividends

The Company's Board of Directors has not declared any dividend during the past three (3) years.

Under the By-Laws of the Company, dividends shall be declared only from surplus profits and shall be payable at such time and in such amounts as the Board of Directors shall determine; provided, however, that no stock dividends shall be issued without the approval of the stockholders representing not less than two-thirds (2/3) of all stock then outstanding and entitled to vote at a general meeting of the Company or at a special meeting called for the purpose. No dividends shall be declared that impair the capital of the Company. Other than the aforesaid, there are no other restrictions that would limit or would likely to limit in the future the ability of the Company to pay dividends on common equity.

4. Title and amount of Securities issued/ to be issued

As of December 31, 2022, the Company has a total of 2,369,684,619 issued and outstanding common shares with par value of Php0.10 per common share.

5. Description of Securities

As of December 31, 2022, **2,369,684,619** common shares are subscribed and outstanding. The common shares are entitled to vote and to dividends.

6. Description of transactions in which the securities are to be issued

There are no transactions in 2022 in which securities have been or are to be issued.

On March 18, 2021, pursuant to the approvals of the Board of Directors last March 22, 2017 and August 17, 2017, and of the stockholders last December 18, 2020, the Board of Directors approved the initial increase of the authorized capital stock of the Company from P250 Million to P750 Million, divided into 5,000,000,000 common shares at par value of P0.10/share. The 5,000,000,000 common shares shall be subscribed by Yang Chi Jen (a.k.a. Michael Yang) at P0.20/share.

7. Reason for Issuance

There are no transactions in 2022 in which securities have been or are to be issued.

For the transaction approved on March 18, 2021, the proceeds thereof shall be invested with the Company's subsidiary, MOSC, for the purpose of supporting its operations and expanding its production lines for fish and meat canning, meat and seafoods processing, and sauces.

(B) Modification or Exchange of Securities

No action has been taken with respect to the modification of any class of securities of the registrant, or the issuance of authorization for issuance of one class of securities of the registrant in exchange for outstanding securities of another class.

(C) Authorization or Issuance of Securities Other than for Exchange

(D) Information on Independent Accountant

The auditing firm of Valdes Abad & Company ("VAC") conducted the audit for the periods ended December 31, 2020, December 31, 2021 and December 31, 2022.

The engagement fees in 2022, 2021 and 2020 are as follows:

	Audit Fees (excl. VAT)	OPE
2022	200,000	30,000
2021	200,000	30,000
2020	200,000	30,000

Other than the above, the Company engaged the services of VAC in 2022 for procedures required by the SEC for publicly-listed companies per SEC Memorandum Circular No. 10, Series of 2019, in connection with the disclosure and regulatory reporting of material related party transactions (RPTs) of the Corporation with the SEC.

VAC, formerly known as Carlos J. Valdes & Associates, one of the oldest accounting firms in the Philippines today, was founded in 1951 by Carlos J. Valdes, a certified public accountant, lawyer, civic leader, educator, businessman and former Philippine Ambassador to Japan and other countries.

VAC was a member firm of Touche Ross in the 1970's; Coopers & Lybrand International in the 1980's up to 1996 and a correspondent firm of RSM International from 1997 up to 2007. This long history of international membership was recognition of its professional standing and track record of world-class service to clients over the years. It is a member firm of GMN International, the association of legally independent firms worldwide.

Changes in Control

There were no changes in control during the year.

Certain Relationships and Related Transactions

In the ordinary course of business, the Corporation had transactions with its then associates, affiliates, subsidiaries and other related parties consisting principally of cash advances and reimbursement of expenses, various guarantees, management and service agreements and intercompany charges.

On March 22, 2017, the BOD approved the following:

- Subscription of the Company's Chairman and President, Yang Chi Jen, to the remaining 365,785,000 unissued shares of the company at Php0.20 per share amounting to a total of Php73,157,000, premium of Php36,578,500.
- Subscription by Yang Chi Jen to at least 25% of the proposed increase in authorized capital stock of the Company at Php0.20 per share. The increase of authorized capital stock of the Company was initially set from Php250,000,000 to Php750,000,000, and amended to up to Php10 Billion.
- Acquisition of 49% of the Philippine 101 Hotel, Inc., a domestic corporation majority owned by Yang Chi Jen.

On June 29, 2017, the BOD approved the additional subscription to 117,091,837 primary shares of its subsidiary, MOSC, at par value of Php1.00 per share, to maintain the Company's 51% ownership.

Further discussion on Related Party Transactions are provided under Note 32 of the 2021 Consolidated Financial Statements.

Parents and immediate parents as of December 31, 2020

The Company has no Parent and immediate parent relationships as of December 31, 2021.

Transactions with Promoters

The Company has not had any transactions with promoters for the past five (5) years.

PART V. CORPORATE GOVERNANCE

The Board of directors and shareholders, management and employees of the Company believe that corporate governance is a necessary component to achieve strategic business management. Going beyond compliance to laws and the implementation of rules and regulations, the Company's governance cultivates a corporate culture of integrity and empowering leadership, and significantly contributes to long-term growth and enhanced shareholder value.

The Company is committed to adhering to the highest level of sound corporate governance practices in setting values that serve as its foundation in guiding both employees and stockholders alike. With a dedicated team of professionals who share such passion, its business practices and work ethics put in place a philosophy of corporate transparency and public accountability.

In compliance with SEC Memorandum Circular No.19, Series of 2016 and SEC Memorandum Circular No.24, Series of 2019, the Corporation revised its Manual on Corporate Governance, adopting the mandatory provisions of the Revised Code of Corporate Governance and Revised Corporation Code. There has been no material deviation from the Corporation's Revised Manual on Corporate Governance.

THE BOARD OF DIRECTORS

A Board leads the Company, which is the highest authority in matters of governance and in managing the business of the Company.

It is the Board's responsibility to foster the long-term success of the Corporation and secure its sustained competitiveness in a manner consistent with its fiduciary responsibility, which it shall exercise in the best interest of the Corporation, its shareholders and other stakeholders.

The Board meets regularly throughout the year to ensure a high standard of business practice for the Corporation and its stakeholders and to ensure soundness, effectiveness, and adequacy of the Corporation's internal control environment. Independent judgment is exercised at all times.

COMMITTEES

To aid in complying with the principles of good corporate governance and as expressly provided in the Corporation's Revised Manual of Corporate Governance, the following committees were established with specific responsibilities.

Nomination, Compensation and Election Committee

The Nomination, Compensation and Election Committee is composed of three (3) members of the Board of Directors and at least one of who is an independent director. The members of the Committee are as follows:

1. Yang Chi Jen – Chairman
2. Amelia T. Tan – Member
3. Atty. Ernesto S. Go- Member

The Committee has established a formal, transparent procedure developing a policy on executive remuneration and for fixing the remuneration packages of corporate officers and directors. It provides oversight over remuneration of senior management and other key personnel ensuring that compensation is consistent with the Corporation's culture, strategy and control environment. It determined the amount of remuneration, which is sufficient to attract and retain directors and officers who are needed to run the company successfully.

It is also tasked to install and maintain a process to ensure that all directors to be nominated for election at the annual stockholders' meeting have all the qualifications and none of the disqualifications for directors as stated in the By-Laws, the Revised Manual on Corporate Governance of the Corporation and the pertinent rules of the SEC.

It likewise reviews and evaluates the qualifications of all persons nominated to positions in the Corporation, which require appointment, by the Board.

Audit Committee

The Audit Committee is composed of three (3) members of the Board and chaired by an independent director. The members of the Committee are as follows:

1. Cristina Hiltrude L. Aganon (Independent Director) – Chairman
2. Aracelli G. Co – Member
3. Maria Luisa T. Wu (Independent Director) – Member

The members have adequate understanding at least or competence at most of the company's financial management systems and environment. The Committee checks all financial reports against its compliance with both the internal financial management handbook and pertinent accounting standards, including regulatory requirements. It performs oversight financial management functions specifically in the areas of managing credit, market, liquidity, operational, legal and other risks of the Corporation, and crisis management.

The committee function includes a direct interface with the internal and external auditors, which are separate and independent of each other.

Corporate Governance Committee/Risk Management and Oversight Committee

The Committee is composed of one (1) independent director and two (2) regular directors. The members are as follows:

1. Maria Luisa T. Wu – (Independent Director) --Chairman
2. Yang Chi Jen – Member
3. Amelia T. Tan – Member

The Committee is tasked to assist the Board in the performance of its corporate governance responsibilities. It shall ensure compliance with and proper observance of corporate governance principles and practices.

The Committee is likewise tasked for the oversight of a Company's Risk Management system to ensure its functionality and effectiveness.

Executive Committee

The Executive Committee is composed of a minimum of three (3) members. The members of the Committee are as follows:

1. Yang Chi Jen – Chairman
2. Amelia T. Tan – Member
3. Aracelli G. Co – Member

The Executive Committee acts in accordance with the authority granted by the Board, or during the absence of the Board, on specific matters within the competence of the Board of Directors, except with respect to approval of any action for which shareholders' approval is also required; distribution of cash dividends; filling of vacancies in the Board or in the Executive Committee; amendment or repeal of By-Laws or the adoption of new By-Laws; amendment or repeal of any resolution of the Board of Directors which by its express terms is not so amendable or repealable; and the exercise of powers delegated by the Board exclusively to other committees.

Compliance Officer

The Compliance Officer is designated to ensure adherence to corporate principles and best practices.

The duties of the Compliance Officer include monitoring of compliance with the provisions and requirements of the Revised Manual on Corporate Governance; determine violation/s of the Manual and recommend penalty for violation thereof for further review and approval of the Board; appear before the Securities and Exchange Commission upon summon; and identify, monitor and control compliance risks.

Content and Timing of Disclosures

The Company updates the investing public with strategic, operating and financial information through adequate and timely disclosures filed with the Securities and Exchange Commission and the Philippine Stock Exchange.

In addition to compliance with periodic reportorial requirements, the Corporation ensures that not only major and market-sensitive information but material information such as earnings, dividend declarations, joint ventures and acquisitions, sale and disposition of significant assets are punctually disclosed to the SEC, PSE and through the Corporation's website.

PART VI. EXHIBITS AND SCHEDULES

The relevant matters/reports/disclosures which were filed in 2022 pertain to the following:

Date	Matters approved/ reported		
May 11, 2022	Approval of the Separate and consolidated Audited Financial Statements		
June 17, 2022	Postponement of the ASM of the Company which pursuant to its By- Laws should be held on the last Friday of June of every year. This, amid COVID-19 pandemic and taking into consideration the public safety and health measures implemented by the government and the prevailing circumstances		
September 30, 2022	Approval of the following: 1. Rescission of the subscription to a total of 130,315,381 common shares by the following:		
	Name	No. of Common shares	Date of Issuance
	Elite Holdings, Inc.	55,052,300	10/13/2011
	Roger G. Stone	18,500,000	10/13/2011
	Oleen Miranda	6,000,000	10/13/2011
	Paul Joseph Cunningham	6,000,000	10/13/2011
	IPVG Employees, Inc.	38,000,000	10/13/2011
	E-store Exchange.Com Inc.	1,763,080	12/07/2010
	Jaime Enrique Y. Gonzalez	5,000,000	04/15/2011
	Ricardo F. Lagdameo	1	12/07/2010
	TOTAL	130,315,381	
	The above subscriptions were made in 2010 and 2011, with the understanding that the above stockholders were to assist in facilitating the issuance and the ultimate listing of the shares. For failure of the said stockholders to provide the requirements and assistance needed within a considerable period since the transaction, the Corporation deems it best to proceed with the rescission of the subscription.		
	previously issued certificates of stocks representing said shares shall be surrendered to and canceled by the Corporation.		
With the above, the updated capital structure of the Company is as follows:			
No. of issued shares	2,369,684,619		
No. of outstanding shares	2,369,684,619		
	2. Amendment of the timeline to proceed with the application for increase of the authorized capital stock of the Corporation as disclosed on March 18, 2021, such that the same shall proceed after the approval of the additional listing of the remaining unlisted shares of the Corporation and service of the lock-up period, as may be applicable.

Annex A:

Contextual Information

Company Details:	
Name of Organization	Millennium Global Holdings, Inc. and subsidiaries (the “Corporation”/ “Company”)
Location of Headquarters	Lot 9 Block 2, John Street, Multinational Village, Paranaque City
Location of Operations	Philippines and overseas
Report Boundary: Legal entities (e.g. subsidiaries) included in this report*	This report covers the operations of the Corporation and its subsidiaries. The subsidiaries are primarily engaged in the seafood business.
Business Model, including Primary Activities, Brands, Products, and Services	<p>Millennium Global Holdings, Inc. (the “Company”) was incorporated and registered with the Philippine Securities and Exchange Commission (“SEC”) per SEC Registration No. 25160 on May 19, 1964. Currently a general holding company, it is listed in the Philippine Stock Exchange, Inc. (the “PSE”) since March 1, 1976 with the ticker code MG.</p> <p>In the recent years, the Company has established its presence through the seafood business of its subsidiaries. Nevertheless, it adopts a positive stance to portfolio diversification and varied business opportunities as the SEC on February 14, 2013 approved, among others, the amendment of its primary purpose to become a general holding company.</p>
Reporting Period	January 1, 2022 to December 31, 2022
Highest ranking Person responsible for this report	Yang Chi Jen – President & CEO

Materiality Process

Explain how you applied the materiality principle (or the materiality process) in identifying your material topics.
<p>Material topics were initially identified using the 5Ws and 1H as guide in gathering information and analysis that would lead to key areas in determining the internal and external factors which impact the Company and the Group as a whole, and which the Company and the Group likewise impact on.</p> <p>A desktop review of industry trends, key factors, and various risks internally and externally identified, as well as industry specific sustainability issues served as reference to assess the prioritization of the relevant stakeholders and identification of material topics.</p> <p>This is an ongoing process and updates on the efforts and relevant findings covering Economic, Environmental and Social areas will be presented on the next annual sustainability reporting.</p>

ECONOMIC

Economic Performance

Direct Economic Value Generated and Distributed

Disclosure	Amount	Units
Direct economic value generated (revenue)	999,319,692	Php
Direct economic value distributed:		Php
a. Operating costs	41,721,877	Php
b. Employee wages and benefits	19,653,894	Php

Millennium Global Holdings, Inc.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The management of **MILLENNIUM GLOBAL HOLDINGS, INC.** and its Subsidiaries is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the year ended December 31, 2022, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern basis of accounting unless management either intends to liquidate the Company or cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders or members.

Valdes, Abad & Company, CPAs, the independent auditor appointed by the stockholders, has audited the consolidated financial statements of the company in accordance with Philippine Standards on Auditing, and in its report to the stockholders or members, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT PUBLIC AUDITOR'S REPORT ON COMPONENTS OF FINANCIAL SOUNDNESS INDICATORS

The Shareholders and Board of Directors

MILLENNIUM GLOBAL HOLDINGS, INC. AND ITS SUBSIDIARIES

Lot 9 Block 2 John St., Multinational Village, Parañaque City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of **MILLENNIUM GLOBAL HOLDINGS, INC. AND ITS SUBSIDIARIES** as at December 31, 2022 and 2021 and have issued our report thereon dated April 28, 2023. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The Supplementary Schedule of Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRS) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission and is not a required part of the basic consolidated financial statements prepared in accordance with PFRS. The components of these financial soundness indicators have been traced to the Group's consolidated financial statements as at December 31, 2022 and 2021 and no material exceptions were noted.

INDEPENDENT AUDITOR'S REPORT

The Shareholders and Board of Directors
MILLENNIUM GLOBAL HOLDINGS, INC. AND ITS SUBSIDIARIES
Lot 9 Block 2 John St., Multinational Village, Parañaque City

Opinion

We have audited the consolidated financial statements of **MILLENNIUM GLOBAL HOLDINGS, INC. AND ITS SUBSIDIARIES** (the Group) which comprise the consolidated statements of financial position as of December 31, 2022 and 2021, and the related consolidated statements of income, consolidated statements of changes in equity, and consolidated statements of cash flows for each of the three years in the period ended December 31, 2022, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2022 and 2021 and of its consolidated financial performances and its consolidated cash flows for each of the three years in the period ended December 31, 2022 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audit in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, the Code of Ethics for Professional Accountants in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matter identified in our audit and how we addressed the matter is as follows:

Borrowings and obligations under finance lease

The Group entered into loan and finance lease agreements with local banks and lessors with a total of P1,129,056,357 which is equivalent to 54% of the total assets. See Notes 22, 23 and 35 of the consolidated financial statements for management's disclosures.

These matters were significant to our audit since the amount is material to the consolidated financial statements.

Audit response

Our audit procedure included assessing the existence and obligation of the Group on the outstanding liabilities. We have also obtained confirmations of the outstanding balances as at December 31, 2022 from the local banks and the leasing company. The documents were reviewed to verify fairness of the outstanding balances of the liabilities.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; to design and perform audit procedures responsive to those risks; and to obtain audit evidence that is sufficient and appropriate to provide a basis for the auditor's opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (ii) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. In circumstances when the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the consolidated financial statements, the auditor shall omit the phrase that the auditor's consideration of internal control is not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If the auditor concludes that a material uncertainty exists, the auditor is required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify the opinion. The auditor's conclusions are based on the audit

evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern

- (v) Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may be reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**MILLENNIUM GLOBAL HOLDINGS, INC.
AND ITS SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2022, 2021 and 2020**

NOTE 1 – CORPORATE INFORMATION

Millennium Global Holdings, Inc. (the Parent Company), Millennium Ocean Star Corporation and Cebu Canning Corporation, its subsidiaries, (collectively referred to herein as the “Group”) were incorporated under the laws of the Republic of the Philippines.

Millennium Global Holdings, Inc.

Millennium Global Holdings, Inc. (the “Parent”) is a general holding company. It was incorporated and registered with the Philippine Securities and Exchange Commission (“SEC”) per SEC Registration No. 25160 on May 19, 1964. It is also listed in the Philippine Stock Exchange, Inc. (the “PSE”) since March 1, 1976. It uses the ticker symbol MG.

In the recent years, the Parent Company has established its presence through the seafood businesses of its subsidiaries. Nevertheless, it adopts a positive stance to portfolio diversification and varied business opportunities as the SEC on February 14, 2013 approved, among others, the amendment of its primary purpose to become a general holding company.

On February 1, 2017, the SEC approved the Parent Company’s application for decrease in authorized capital stock to ₱250 Million and equity restructuring. On March 20, 2017, the SEC further approved the equity restructuring to partially wipe out the remaining deficit as of December 31, 2015.

On October 7, 2022, the SEC approved the Parent Company’s application for change of the principal office to Lot 9 Block 2 John St., Multinational Village, Paranaque City.

Millennium Ocean Star Corporation (MOSC)

The Parent Company owns 51% controlling interest in MOSC. MOSC is primarily engaged in the processing of high-quality seafood and aquaculture products for export and trading of imported marine and other related products. Its key business activity is the processing and export of several quality and high valued seafood products such as Black Tiger Shrimps, Kisu (asohos) fillet, frozen lobsters, etc. Its processing plants and buying stations are strategically located all over the country, enabling it to have a strong market foothold in Japan, Taiwan, Hong Kong, Vietnam, Malaysia, Singapore, United States of America, Canada, etc. MOSC also imports salmon, mackerel scad, scallops, shrimps, etc. for the local market, supplying supermarkets, groceries, food processors, hotels, and restaurants nationwide.

The Subsidiary was organized under the laws of the Republic of the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) per Registration No. A200008891 on June 7, 2000.

The Subsidiary’s registered office address is at Block 4 Lot 6 Greenbreeze Village, Langkaan II, Dasmariñas, Cavite, Philippines.

Cebu Canning Corporation (C3)

The Parent Company also owns 51% stake in Cebu Canning Corporation (C3). C3 is a domestic company engaged in the business of manufacturing, processing and dealing in pasteurized canned crabmeat, frozen marine products and other food products for export purposes. The raw crab meat which is the main material used in the business is locally sourced by C3.

Due to the COVID-19 pandemic, C3 regular operations were temporarily halted to save on costs and production was temporarily absorbed by MOSC. This irregularity may continue until such time that it is deemed appropriate to resume C3 regular operations.

The Subsidiary was incorporated under the laws of the Republic of the Philippines and registered with Philippine Securities and Exchange Commission (SEC) per Registration No. CS200806090 on April 24, 2008.

The Subsidiary's registered office address is at Tresco Compound, Casuntinigan, Asahi Road, Mandaue City, Cebu, Philippines.

Approval of consolidated financial statements

The consolidated financial statements of the Group as for the years ended December 31, 2022 and 2021 was authorized for issue in accordance with a resolution of the BOD on April 14, 2023 and that the Chairman of Board is authorized to approve such consolidated financial statements on their behalf.

NOTE 2 - BASIS OF PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS

2.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with the Philippine Financial Reporting Standards (PFRSs). PFRSs includes all applicable PFRS, Philippine Accounting Standards (PASs) and Interpretations issued by the Philippine Financial Reporting Interpretation Committee (PFRIC) as approved by the Financial Reporting Standards Committee (FRSC) and adopted by the SEC.

The consolidated financial statements have been prepared on the accrual basis using historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI) that are measured at fair value. The consolidated financial statements are presented in Philippine peso, which is the Group's functional and presentation currency. All values are rounded to the nearest million, except when otherwise indicated.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Parent Company, Millennium Global Holdings, Inc., and the following subsidiaries:

	Percentage of Ownership	
	2022	2021
Operating subsidiaries:		
Millennium Ocean Star Corporation	51%	51%
Cebu Canning Corporation	51%	51%

A subsidiary is an entity in which the Parent Company has control. Subsidiaries are consolidated from the date on which control is transferred to the Parent Company and cease to be consolidated from the date on which control is transferred out of the Parent Company. Control is achieved when the Parent Company is exposed to, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee, if and only if, the Parent Company has:

- Power over the investee
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Parent Company's voting rights and potential voting rights

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the

consolidated financial statements from the date the Group gains control until the date the Parent Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the consolidated financial statements of subsidiaries to bring their accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to intra-group transactions are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Parent Company loses control over the subsidiary, it:

- derecognizes the assets (including goodwill) and liabilities of the subsidiary
- derecognizes the carrying amount of any non-controlling interest
- derecognizes the cumulative transaction differences recorded in equity
- recognizes the fair value of the consideration received
- recognizes the fair value of any investment retained
- recognizes any surplus or deficit in profit or loss
- reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated in full.

Non-controlling Interests

Non-controlling interests represent the interests in subsidiaries which are not owned, directly or indirectly through subsidiaries, by the Parent Company. If losses applicable to the non-controlling interest in a consolidated subsidiary exceed the non-controlling interest's equity in the subsidiary, the excess, and any further losses applicable to non-controlling interest, are charged against the majority interest except to the extent that the minority has a binding obligation to, and is able to, make good of the losses. If the subsidiary subsequently reports profits, the majority interest is allocated all such profits until the interest's share of losses previously absorbed by the majority interest has been recovered.

2.3 Business combination and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PAS, is measured at fair value with changes in fair value recognized either in profit or loss or as a change to OCI. If the contingent consideration is not within the scope of PRFS 9, it is measured in accordance with the appropriate PFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assess whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in the consolidated statements of income.

After the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortized but is reviewed for impairment at least annually. Any impairment loss is recognized immediately in profit or loss and is not subsequently reversed. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquire are assigned to those units.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

2.4 Use of judgment and estimates

The preparation of the Group's financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the Group's financial statements and accompanying notes.

Judgments are made by management in the development, selection and disclosure of the Group's significant accounting policies and estimates and the application of these policies and estimates.

The estimates and assumptions are reviewed on an on-going basis. These are based on management's evaluation of relevant facts and circumstances as of the reporting date. Actual results could differ from such estimates.

Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

2.5 Adoption of new and revised accounting standards

New and Amended Accounting Standards Effective in 2022

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following new and amended PFRS which the Group adopted:

Effective beginning on or after April 1, 2021

Amendments to PFRS 16, COVID-19-related Rent Concessions beyond 30 June 2021 – The pronouncement amended PFRS 16 Leases to provide lessees with an exemption from assessing whether a COVID-19-related rent concession is a lease modification. On issuance, the practical expedient was limited to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2021.

Since lessors continue to grant COVID-19-related rent concessions to lessees and since the effects of the COVID-19 pandemic are ongoing and significant, the IASB decided to extend the time period over which the practical expedient is available for use.

The Changes in Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to PFRS 16) amend PFRS 16 to:

1. permit a lessee to apply the practical expedient regarding COVID-19-related rent concessions to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022 (rather than only payments originally due on or before 30 June 2021);
2. require a lessee applying the amendment to do so for annual reporting periods beginning on or after 1 April 2021;
3. require a lessee applying the amendment to do so retrospectively, recognising the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the annual reporting period in which the lessee first applies the amendment; and
4. specify that, in the reporting period in which a lessee first applies the amendment, a lessee is not required to disclose the information required by paragraph 28(f) of PAS 8.

The amendment is effective for annual reporting periods beginning on or after 1 April 2021 (earlier application permitted, including in financial statements not yet authorized for issue at the date the amendment is issued).

Effective beginning on or after January 1, 2022

Amendments to PAS 16, Property, Plant and Equipment - Proceeds before Intended Use - the purpose of the amendments is to prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss.

PAS 16 "Property, Plant and Equipment" outlines the accounting treatment for most types of property, plant and equipment. Property, plant and equipment is initially measured at its cost, subsequently measured either using a cost or revaluation model, and depreciated so that its depreciable amount is allocated on a systematic basis over its useful life.

Amendments to PAS 37, Onerous Contracts - Cost of Fulfilling a Contract – the amendment is regarding costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous. The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

PAS 37 "Provisions, Contingent Liabilities and Contingent Assets" outlines the accounting for provisions (liabilities of uncertain timing or amount), together with contingent assets (possible assets) and contingent liabilities (possible obligations and present obligations that are not probable or not reliably measurable).

Amendments to PFRS 3, Reference to the Conceptual Framework with amendments to PFRS 3 'Business Combinations – the amendments update an outdated reference in PFRS 3 without significantly changing its requirements. The changes are: update PFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework; add to PFRS 3 a requirement that, for transactions and other events within the scope of PAS 37 or IFRIC 21, an acquirer applies PAS 37 or IFRIC 21 (instead of the Conceptual Framework) to identify the liabilities it has assumed in a business combination; and add to PFRS 3 an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination.

PFRS 3 "Business Combinations" outlines the accounting when an acquirer obtains control of a business (e.g. an acquisition or merger). Such business combinations are accounted for using the 'acquisition method', which generally requires assets acquired and liabilities assumed to be measured at their fair values at the acquisition date.

PAS 1 "Presentation of Financial Statements" sets out the overall requirements for financial statements, including how they should be structured, the minimum requirements for their content and overriding concepts such as going concern, the accrual basis of accounting and the current/non-current distinction. The standard requires a complete set of financial statements to comprise a statement of financial position, a statement of profit or loss and other comprehensive income, a statement of changes in equity and a statement of cash flows.

PAS 41 "Agriculture" sets out the accounting for agricultural activity – the transformation of biological assets (living plants and animals) into agricultural produce (harvested product of the entity's biological assets). The standard generally requires biological assets to be measured at fair value less costs to sell.

PFRS 1 "First-time Adoption of International Financial Reporting Standards" sets out the procedures that an entity must follow when it adopts PFRS for the first time as the basis for preparing its general purpose financial statements. The PFRS grants limited exemptions from the general requirement to comply with each PFRS effective at the end of its first PFRS reporting period.

Annual Improvements to Accounting Standards

2018-2020 Cycle

The Annual Improvements to PFRSs (2018-2020 Cycle) are effective for annual periods beginning on or after January 1, 2022, with retrospective application. The amendments to the following standards:

- PFRS 1, Subsidiary as a first-time adopter - The amendment permits a subsidiary to measure cumulative translation differences using the amounts reported by its parent, based on the parent's date of transition to PFRSs. As a result of the amendment, a subsidiary that uses the exemption in PFRS 1: D16 (a) can now also elect to measure cumulative translation differences for all foreign operations at the carrying amount that would be included in the parent's consolidated financial statements, based on the parent's date of transition to PFRS Standards, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. A similar election is available to an associate or joint venture that uses the exemption in PFRS 1: D16 (a).
- PFRS 9, Fees in the '10 per cent' test for derecognition of financial liabilities - The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in assessing whether to derecognize a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf.
- The Company will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendments are not expected to have a material impact on the financial statements.
- PFRS 16, Lease Incentives - The amendment removes from the example the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example.
- PAS 41, Taxation in fair value measurements - The amendment removes the requirement for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in PFRS 13.

The amendments do not have material impact on the consolidated financial statements.

New and Amended Standards Effective Subsequent to 2022 but not Early Adopted

Pronouncements issued but not yet effective as at December 31, 2022 are listed below. The Group intends to adopt the following pronouncements when they become effective. Except as otherwise indicated, the Group does not expect the adoption of these new pronouncements to have a significant impact on the financial statements.

Effective beginning on or after January 1, 2023

Amendments to PAS 1, Classification of Liabilities as Current or Non-current – the amendments provide a more general approach to the classification of liabilities under PAS 1 based on the contractual arrangements in place at the reporting date. The amendments affect only the presentation of liabilities in the statement of financial position not the amount or timing of recognition of any asset, liability income or expenses, or the information that entities disclose about those items. To:

- clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least twelve months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability;
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability; and
- make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The Group is still assessing the impact of the preceding amendments to the consolidated financial statements.

Amendments to PFRS 17, Insurance Contracts – the amendments' purpose is to address concerns and implementation challenges that were identified after PFRS 17 'Insurance Contracts' was published in 2017. The main changes are: deferral of the date of initial application of PFRS 17 by two years to annual periods beginning on or after January 1, 2023; additional scope exclusion for credit card contracts and similar contracts that provide insurance coverage as well as optional scope exclusion for loan contracts that transfer significant insurance risk; recognition of insurance acquisition cash flows relating to expected contract renewals, including transition provisions and guidance for insurance acquisition cash flows recognized in a business acquired in a business combination; extension of the risk mitigation option to include reinsurance contracts held and non-financial derivatives; amendments to require an entity that at initial recognition recognizes losses on onerous insurance contracts issued to also recognize a gain on reinsurance contracts held; simplified presentation of insurance contracts in the statement of financial position so that entities would present insurance contract assets and liabilities in the statement of financial position determined using portfolios of insurance contracts rather than groups of insurance contracts; and several small amendments regarding minor application issues.

PFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The objective of PFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance and cash flows.

The amendments are not expected to have a significant impact on the preparation of consolidated financial statements.

Disclosure of Accounting Policies (Amendments to PAS 1, Presentation of Financial Statements, and IFRS Practice Statement 2, Making Materiality Judgements), continues the IASB's clarifications on applying the concept of materiality. These amendments help companies provide useful accounting policy disclosures, and they include:

- requiring companies to disclose their material accounting policies instead of their significant accounting policies;
- clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and do not need to be disclosed; and
- clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material.

The IASB also amended IFRS Practice Statement 2 to include guidance and examples on applying materiality to accounting policy disclosures.

The Group is still assessing the impact of the preceding amendments to the consolidated financial statements.

Definition of Accounting Estimates (Amendments to PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors), clarifies how companies distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates. The distinction between the two is important because changes in accounting policies are applied retrospectively, whereas changes in accounting estimates are applied prospectively.

The amendments clarify that accounting estimates are monetary amounts in the financial statements subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy.

PAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" is applied in selecting and applying accounting policies, accounting for changes in estimates and reflecting corrections of prior period errors. The standard requires compliance with any specific PFRS applying to a transaction, event or condition, and provides guidance on developing accounting policies for other items that result in relevant and reliable information. Changes in accounting policies and corrections of errors are generally retrospectively accounted for, whereas changes in accounting estimates are generally accounted for on a prospective basis.

The Group is still assessing the impact of the preceding amendments to the consolidated financial statements.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to PAS 12, Income Taxes), clarifies how companies account for deferred taxes on transactions such as leases and decommissioning obligations, with a focus on reducing diversity in practice.

The amendments narrow the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision.

PAS 12, "Income Taxes" implements a so-called 'comprehensive balance sheet method' of accounting for income taxes which recognizes both the current tax consequences of transactions and events and the future tax consequences of the future recovery or settlement of the carrying amount of an entity's assets and liabilities. Differences between the carrying amount and tax base of assets and liabilities, and carried forward tax losses and credits, are recognized, with limited exceptions, as deferred tax liabilities or deferred tax assets, with the latter also being subject to a 'probable profits' test.

The Group is still assessing the impact of the preceding amendments to the consolidated financial statements.

Effective beginning on or after January 1, 2024

PFRS 16, "Leases" specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. Lessor accounting however remains largely unchanged from PAS 17 and the distinction between operating and finance leases is retained.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
--

The significant accounting policies used in the preparation of these consolidated financial statements are summarized below. The policies have been consistently applied to all years presented unless otherwise stated.

3.1 Financial instruments

Initial recognition

The financial asset or a financial liability are recognized only when the entity becomes party to the contractual provisions of the instrument.

A financial asset (except trade receivable without a significant financing component) or financial liability are initially measured at fair value plus, in the case not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and measurement

The financial assets are classified based on the Group's business model for managing the assets and the contractual cash flows characteristics, and these are measured as follows:

- **Amortized cost** - a financial asset is measured at amortized cost if both of the following conditions are met:
 - i. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
 - ii. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- **Fair value through other comprehensive income (FVOCI)** - financial assets are classified and measured at fair value through other comprehensive income if they are held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- **Fair value through profit or loss (FVTPL)** - any financial assets that are not held in one of the two business models mentioned are measured at fair value through profit or loss.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

The foregoing categories of financial instruments are more fully described below.

Financial assets at FVTPL - These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

As of December 31, 2022, and 2021, the Group has no financial assets at FVTPL.

Financial assets at amortized cost - These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss. Cash, trade and other receivables, refundable deposits, and due from related parties are included in this category.

Debt investments at FVOCI - These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI - These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

As of December 31, 2022, and 2021, the Group's equity investments are carried at FVOCI.

Financial liabilities – Classification and measurement

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition.

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

As of December 31, 2022, and 2021, the Group has no financial liabilities classified under FVTPL.

The other financial liabilities of the Group as of December 31, 2022 and 2021, includes trade and other payables, due to related parties, borrowings, and lease liability.

Derecognition

Financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred, or liabilities assumed) is recognized in profit or loss.

Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Impairment

Impairment of financial assets are recognized in stages as follows:

- Stage 1 - as soon as a financial instrument is originated or purchased, 12-month expected credit losses are recognized in profit or loss and a loss allowance is established. This serves as a proxy for the initial expectations of credit losses. For financial assets, interest revenue is calculated on the gross carrying amount (without deduction for expected credit losses).
- Stage 2 - if the credit risk increases significantly and is not considered low, full lifetime expected credit losses are recognized in profit or loss. The calculation of interest revenue is the same as for Stage 1.
- Stage 3 - if the credit risk of a financial asset increases to the point that it is considered credit-impaired, interest revenue is calculated based on the amortized cost (the gross carrying amount less the loss allowance). Financial assets in this stage will generally be assessed individually. Lifetime expected credit losses are recognized on these financial assets.

3.2 Current versus non-current classification

The Group presents assets and liabilities in the consolidated statements of financial position based on current/non-current classification.

An asset as current when:

- It is expected to be realized or intended to be sold or consumed in normal operating cycle

- It is primarily held for the purpose of trading
- It is expected to be realized within twelve months after the reporting period, or
- It is cash on hand and in banks unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as noncurrent.

3.3 Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded by the group at the respective functional currency rates prevailing at the date of the transaction.

Monetary assets and monetary liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date.

All differences are taken to the consolidated statement of income with the exception of all monetary items that provide an effective hedge for a net investment in a foreign operation. These are recognized in OCI until the disposal of the net investment, at which time they are recognized in profit or loss. Tax charges and credits applicable to exchange differences on these monetary items are also recorded in the OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the par value is determined.

3.4 Fair value measurement

For measurement and disclosure purposes, the Group determines the fair value of an asset or liability at the initial measurement or at each statement of financial position date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

3.5 Cash

Cash consist of cash on hand and in banks. Cash in banks earns interest at respective bank deposit rates. For purpose of reporting cash flows, cash on hand and in banks are unrestricted and available for use in current operations.

3.6 Trade and other receivables

Trade and other receivables are recognized initially at the transaction price and are subsequently measured at amortized cost using the EIR method, less provision for impairment. Provision for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables.

3.7 Inventories

Inventories are initially recognized at cost, and subsequently at the lower of cost and net realizable value (NRV). Cost comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in, first-out (FIFO) method. NRV represent the estimated selling price less all estimated costs to be incurred in marketing, selling and distributing the goods.

When the NRV of the inventories is lower than the cost, the group provides for an allowance for the decline in the value of the inventory and recognizes the write-down as an expense in the consolidated statement of income.

When the inventories are sold, the carrying amount of those inventories is recognized as an expense in the period in which the related revenue is recognized.

3.8 Prepayments and other current assets

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to the consolidated statement of income as they are consumed in operations or have expired with the passage of time.

Prepayments are classified in the consolidated statements of financial position as current assets when the cost of goods or services related to the prepayment are expected to be incurred within one year or the Group's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as noncurrent assets.

Other assets are recognized when the Group expects to receive future economic benefit from them and the amount can be measured reliably. Other assets are classified in the consolidated statements of financial position as current assets when the cost of goods or services related to the assets are expected to be incurred within one year of the Group's normal operating cycle, whichever is longer. Otherwise, other assets are classified as non-current assets.

3.9 Investment in associates

Associates are entities over where the Parent Company is in a position to exercise significant influence in the financial and operating policy decisions but not control or joint control.

Investment in associates is recognized using the equity method of accounting. Under the equity method the investment is initially recognized at cost and adjusted thereafter for the post-acquisition change in the investor's share of net assets of the investee. On acquisition of the investment any difference between the cost of the investment and the investor's share of the net fair value of the associate's identifiable assets, liabilities and contingent liabilities is accounted for in accordance with PFRS 3 Business Combinations.

The income statement of the investor includes the investor's share of the income statement of the investee.

Losses of associates in excess of the Company's interest in the relevant entity are not recognized except to the extent that the Company has an obligation. Profits on company transactions with associates are eliminated to the extent of the Company's interest in the relevant associate.

Below is the Parent Company's associate, which is incorporated outside the Philippines.

<u>Associate</u>	<u>Percentage of Ownership</u>
Pacific Seafoods Company (PASECO)	47.57%

3.10 Property, plant and equipment

Property, plant and equipment are initially measured at cost. At the end of each reporting period, items of property, plant and equipment are measured at cost less any subsequent accumulated depreciation, amortization and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset and the estimated present value of any future unavoidable costs of dismantling and removing items. The corresponding liability is recognized within provisions.

Subsequent expenditures relating to an item of property, plant and equipment that have already been recognized are added to the carrying amount of the asset when it is probable the future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Group. All other subsequent expenditures are recognized as expense in the period in which those are incurred.

Depreciation and amortization is charged so as to allocate the cost of other assets less their residual values over their estimated useful lives using the straight-line method.

Below are the estimated useful lives used for the depreciation and amortization of property, plant and equipment:

	<u>Useful years</u>
Building	30 years
Leasehold improvements	15 years
Machineries	15 years
Transportation equipment	5 years
Furniture and fixtures	5 years

Land is not depreciated. Leasehold improvements are amortized over the term of the lease, or the estimated useful life of the leasehold improvements whichever is shorter.

The estimated useful lives and depreciation and amortization method are reviewed periodically, and adjusted prospectively, if necessary, to ensure that the periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property, plant and equipment. The lease term includes assumption of lease renewals when such have been determined to be reasonably assured. The lease renewal is reasonably assured when failure to renew the lease imposes a penalty to the lessee.

Depreciation and amortization of these assets, on the same basis as other property assets commences at the time the assets are ready for their intended use.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation is charged to the consolidated statement of income.

When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and any impairment in value are removed from the accounts and any resulting gain or loss arising on the disposal or retirement of an asset, determined as the difference between the sales proceeds and the carrying amount of the asset, is recognized in the consolidated statement of income.

3.11 Refundable security deposits

Refundable security deposits represent payments made in relation to the lease agreements entered into by the Group. These are carried at cost and will generally be applied as lease payments toward the end of the lease terms or refunded to the Group.

3.12 Impairment of non-financial assets other than inventories

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment or an impairment loss previously recognized no longer exists or may have decreased. If any such indication exists, the Group makes a formal estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or its Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash flows independent of those from other assets, the recoverable amount is determined for the CGU to which the asset belongs. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized. Reversals of impairment are recognized in the consolidated statement of income.

Goodwill is tested for impairment annually as at December 31 and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

The Group performs its impairment test of goodwill every reporting date.

3.13 Trade and other payables

Trade and other payables are obligations to pay for goods and services that have been acquired in the ordinary course of business from suppliers. They are classified as current liabilities if payment is due within one year or less (or within the normal operating cycle of the business if longer); otherwise, they are presented as noncurrent liabilities.

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with supplier, including amounts due to employees. It is necessary to estimate the amount or timing of accruals, however, the uncertainty is generally much less than for provision.

Government dues and remittances include withholding income taxes which represent taxes retained by the Group for an item of income required to be remitted to the BIR in the following month. The obligation of the Group to deduct and withhold the taxes arises at the time an income payment is paid or payable, or the income payment is accrued or recorded as an expense or asset, whichever comes first. The term "payable" refers to the date the obligation becomes due, demandable or legally enforceable.

Trade and other payables are recognized initially at fair value and subsequently measured at amortized cost using the EIR method.

3.14 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost using EIR method, which ensures that any finance cost over the period of repayment is at constant rate on the balance of the liability carried in the consolidated statements of financial position.

The Group classifies borrowings as current liabilities if settlement is expected within one year or less, and the Group does not have the right to defer settlement of the liabilities and does not breach any loan provisions on or before the end of the reporting period. Otherwise, these are presented as noncurrent liabilities.

3.15 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Borrowing costs that are not directly attributable to the acquisition, construction, or production of qualifying asset are recognized in the consolidated statement of income in the period which they are incurred.

3.16 Provisions and contingencies

Provisions are recognized when: (a) Group has a present obligation (legal or constructive) as a result of a past event; (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and (c) a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as finance cost. When the Group expects a provision or loss to be reimbursed, the reimbursement is recognized as a consolidated asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in the consolidated statement of income, net of any reimbursement.

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed in the notes unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognized in the consolidated financial statements but disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

3.17 Due to (from) related parties

Due to (from) related parties are non-interest bearing borrowings. These are measured initially at their nominal values and subsequently recognized at amortized costs less settlement payments.

3.18 Deposit for future share subscription

Deposit for future share subscription represents payments made on subscription of shares which cannot be directly credited to 'Capital Stock' pending application for the approval of the proposed increase presented for filing /filed with the SEC and registration of the amendment to the Articles of Incorporation increasing capital stock. The paid-up subscription can be classified under equity if the nature of the transaction give rise to a contractual obligation of the Group to deliver its own shares to the subscriber in exchange of the subscription amount.

In addition, deposit for future share subscription shall be classified under equity if all of the following elements are present as at reporting date:

- a. The unissued authorized capital of the entity is insufficient to cover the amount of shares indicated in the contract;
- b. There is Board of Directors' approval on the proposed increase in authorized capital stock (for which a deposit was received by the corporation);
- c. There is stockholders' approval of said proposed increase; and
- d. The application for the approval of the proposed increase has been presented for filing or has been filed with the Commission.

If any or all of the foregoing elements are not present, the deposit for future share subscription shall be recognized as a noncurrent liability in the consolidated statements of financial position.

As of December 31, 2022, the Group's application for increase in authorized capital stock is pending for approval of the SEC.

3.19 Equity

Share capital is measured at par value for all shares issued. When the shares are sold out at a premium, the difference between the proceeds and the par value is credited to the "Share premium" account. When shares are issued for a consideration other than cash, the proceeds are measured by the fair value of the consideration received. In case the shares are issued to extinguish or settle the liability of the Group, the shares shall be measured either at the fair value of the shares issued or fair value of the liability settled, whichever is more reliably determinable.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Retained earnings represent the cumulative balance of periodic net income or loss, dividend distribution, prior period adjustments, effect of changes in accounting policy and other capital adjustments. When retained earnings account has a debit balance, it is called "deficit", and presented as a deduction from equity.

Dividends are recognized when they become legally payable. Dividend distribution to equity shareholders is recognized as liability in the Group's consolidated financial statements in the period in which the dividends are declared and approved by the Group's BOD.

3.20 Revenue recognition

Revenue from contract with customers

Revenue from contract with customers is recognized at a point in time when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for the goods or services. The Group applies this standard with its revenue arrangements on investments.

To determine whether to recognize revenue, the Group follows a five-step process:

1. identifying the contract with a customer;
2. identifying the performance obligation;
3. determining the transaction price;
4. allocating the transaction price to the performance obligations; and,
5. recognizing revenue when/as performance obligations are satisfied.

For Step 1 to be achieved, the following gating criteria must be present:

- the parties to the contract have approved the contract either in writing, orally or in accordance with other customary business practices;
- each party's rights regarding the goods or services to be transferred or performed can be identified;
- the payment terms for the goods or services to be transferred or performed can be identified;
- the contract has commercial substance (i.e., the risk, timing or amount of the future cash flows is expected to change as a result of the contract; and,
- collection of the consideration in exchange of the goods and services is probable.

Revenue is recognized only when (or as) the Group satisfies a performance obligation by transferring control of the promised goods or services to a customer. The transfer of control can occur over time or at a point in time.

A performance obligation is satisfied at a point in time unless it meets one of the following criteria, in which case it is satisfied over time:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; and,

- the Company's performance does not create an asset with an alternative use to the Group and the entity has an enforceable right to payment for performance completed to date.

The transaction price allocated to the performance obligations satisfied at a point in time is recognized as revenue when control of goods or services transfers to the customer. As a matter of accounting policy when applicable, if the performance obligation is satisfied over time, the transaction price allocated to that performance obligation is recognized as revenue as the performance obligation is satisfied.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contract with customers are disclosed in Note 4.

Sale of goods

Revenue from the sale of goods is recognized when all of the following conditions are satisfied:

- a. The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- b. The Group retains neither continuing managerial involvement to the degree usually associated with the ownership nor effective control over the goods sold;
- c. The amount of revenue can be measured reliably;
- d. It is probable that the economic benefits associated with the transaction will flow to the Group; and
- e. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

If it is probable that discount will be granted and the amount can be measured reliably, then the discount is recognized as a reduction of revenue as the sale is recognized.

Rental income

Rental income from non-cancellable operating leases is recognized as income on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

Finance income

Interest income is recorded using the EIR which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. Interest income is included in "finance income" in the consolidated statements of income.

Contract balances

Receivable from Customers

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Cost to obtain contract

The incremental costs of obtaining a contract with a customer are recognized as an asset if the Group expects to recover them.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Group performs under the contract.

3.21 Employee benefits

A defined contribution plan is a pension plan under which Group pays fixed contributions into a consolidated entity. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods. A defined benefit plan is a pension plan that is not a defined contribution plan.

Defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability or asset recognized in the consolidated statement of financial position in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually using projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash flows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of all related pension obligations.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the consolidated statement of income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the consolidated statement of income.

Remeasurements comprising actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

3.22 Costs and expense recognition

Costs and expenses are recognized in the consolidated statements of income when the decrease in future economic benefit related to a decrease in an asset or an increase in liability has arisen that can be measured reliably. Costs and expenses are recognized in the consolidated statements of income: on the basis of a direct association between the costs incurred and the earning of specific items of income; on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the consolidated statements of financial position as an asset.

Costs and expenses in the consolidated statements of income are presented using the function of expense method. Costs of sales are expenses incurred that are associated with the goods sold and include purchases of goods, distribution costs, labor costs and overhead. General and administrative expenses are costs attributable to administrative and other business activities of the Group.

3.23 Leases

At inception of a contract, an entity shall assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group assesses whether the contract meets three key evaluations which are whether:

- a) the contract contains an *identified asset*, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group,
- b) the Group has the *right to obtain substantially all of the economic benefits* from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract,
- c) the Group has the *right to direct the use* of the identified asset throughout the period of use.

The Group shall reassess whether a contract is, or contains, a lease only if the terms and conditions of the contract are changed.

The Group as a lessee

The Group recognizes right-of-use assets and lease liabilities for its leases.

(a) Right-of-use asset

At lease commencement date, the Group recognizes a right-of-use asset on the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

(b) Lease liability

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

3.24 Taxes

Current income tax

Current income tax assets and liabilities for the current period is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statement of income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on all temporary differences between the tax bases of assets and liabilities and their carrying amounts for reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry-forward of unused tax credits from excess minimum corporate income tax (MCIT) and net operating loss carry over (NOLCO), and any unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits from MCIT and NOLCO and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination; and at the time of the transaction, affects neither the accounting profit nor taxable profit (or loss).
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend to either settle the liabilities simultaneously.

Value-added Tax (VAT)

Revenue, expenses and assets are recognized net of the amount of VAT.

For acquisition of capital goods over ₱1,000,000, the VAT is deferred and amortized over the useful life of the related capital goods or 60 months, whichever is shorter, commencing on the date of the acquisition.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of 'prepayments and other current assets' or 'trade and other payables' in the consolidated statements of financial position.

3.25 Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities. The key management personnel of the Group and post-employment benefit plans for the benefit of the Group's employees are also considered to be related parties.

3.26 Earnings per share (EPS)

Basic EPS is determined by dividing profit or loss by the weighted average number of shares issued and outstanding during the year.

For the purpose of calculating diluted EPS, profit or loss for the year attributable to ordinary equity shareholders of the Group and the weighted average number of shares outstanding are adjusted for the effects of all dilutive potential ordinary shares.

3.27 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components.

Allocating resources and assessing performance of the operating segments, has been identified as the Chairman of the Board that makes strategic decisions.

An operating segment may engage in business activities for which it has yet to earn revenues, for example, start-up operations may be operating segments before earning revenues.

Segment results that are reported to the Chairman of the Board include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, head office expenses, interest income and expenditures and income tax assets and liabilities.

3.28 Events after the reporting date

Post year-end events up to the date when the consolidated financial statements were authorized for issue by the BOD that provide additional information about the Group's position at reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

NOTE 4 - SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the consolidated financial statements in conformity with PFRS requires the management to make estimates, assumptions and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes.

The estimates and associated assumptions are based on historical experiences and other various factors that are believed to be reasonable under the circumstances including expectations of related future events, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates, assumptions and judgments are reviewed and evaluated on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

4.1 Judgments

a) Going concern

The Group's management has made an assessment on the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue their business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

b) Determination of functional currency

The consolidated financial statements are presented in the Philippine Peso, which is also the Parent Company's functional currency. For each entity, the Group determines the functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency.

c) Classification of financial statements

The Group exercises judgments in classifying a financial instrument, or its component parts, on initial recognition as a financial asset, a financial liability, or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial asset or liability. The substance of a financial instrument, rather than its legal form, governs its classification in the consolidated statement of financial position.

The classification of financial assets and liabilities is presented in Note 8.

d) Fair value measurements

A number of the Group's accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities.

The Group uses market observable data when measuring the fair value of an asset or liability. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques.

If the inputs used to measure the fair value of an asset or a liability can be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy based on the lowest level input that is significant to the entire measurement.

e) Revenue recognition from contracts with customers

Revenue recognition under PFRS 15 involves the application of significant judgment and estimation in the (a) identification of the contract for sale of goods and services that would meet the requirements of PFRS 15; (b) assessment of performance obligation and the probability that the entity will collect the consideration from the buyer; and (c) determining the timing of satisfaction of the performance obligation.

f) Identification of the contract

The Group's primary document for a contract with a customer is a signed contract to sell. It has determined however, that in cases wherein contracts to sell are not signed by both parties, the combination of its other signed documentation such as reservation agreement, official receipts, quotation sheets and other documents, would contain all the criteria to qualify as contract with customer under PFRS 15.

In addition, part of the assessment of the Group before revenue recognition is to assess the probability that the Group will collect the consideration to which it will be entitled in exchange for the goods that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, the Group considers the significance if the customer's initial payments in relation to the total contract price. Collectability is also assessed by considering factors such as payment history of customer, age and pricing of the property. Management regularly evaluates the historical cancellations and back-outs if it would still support its current threshold of customers' equity before commencing revenue recognition.

g) Determining performance obligation

With respect to sale of goods, the Group concluded that the transfer of goods and services in each contract constitute a performance obligation. Generally, the Group is responsible for all these goods and services and the overall management of the sale and production.

The Group uses those goods and services as inputs and provides a significant service of integrating them into a combined output.

h) Determining the timing of satisfaction of the performance obligation

The Group concluded that revenue from contracts with customers is to be recognized at a point in time since it does not fall within any of the following conditions to be met for a recognition over a period of time:

- (a) The customer receives and consumes the benefits of the goods or services as they are provided by the Group;
- (b) the Group's performance does not create an asset with an alternative use and;
- (c) the goods or services create or enhances an asset that the customer controls as that asset is created and enhanced.

i) Determination whether an agreement contains a lease

The determination of whether a contract is, or contains a lease, is based on the substance of the arrangement at the inception of the lease. The arrangement is assessed for if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration

The Group has entered into a lease arrangement as a lessor and a lessee.

Leases are further disclosed in Note 35.

j) Contingencies

The Group is currently involved in legal proceedings. The estimate of the probable cost for the resolution of claims has been developed in consultation with the aid of the outside legal counsel handling the Group's defense in this matter and is based upon an analysis of potential results. Management does not believe that the outcome of his matter will affect the results of operations. It is probable, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to this proceeding.

k) Repairs and maintenance

Costs of repairs and maintenance that do not result in an increase in the future economic benefit of an item of property and equipment is charged to operations in the period it is incurred. Otherwise, it is capitalized as part of the asset.

4.2 Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the financial reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting year are discussed below:

a) Fair values of financial instruments

PFRS requires that financial assets and financial liabilities be carried or disclosed at fair value, which requires the use of accounting estimates and judgment. While significant components of fair value measurement were determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, and volatility rates), the amount of changes in fair value would differ if the Group utilized different valuation methodologies. Any change in the fair values of financial assets and financial liabilities directly affects profit or loss, equity, and the required disclosures.

Where the fair values of financial assets and financial liabilities recorded in the statements of financial position cannot be derived from active markets, their fair values are determined using valuation techniques that are generally-accepted market valuations including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values.

The fair values of financial assets and financial liabilities by category and their fair value hierarchy are set out in Note 7.

b) Assessing ECL on financial assets

The Group applies the general approach in measuring the ECL. For cash, the Group assessed that cash is deposited with reputable banks that possess good credit ratings. For trade and other receivables and due from related parties, the Group considers the financial capacity of the counterparty. No ECL was recognized in 2022 and 2021. The carrying amounts of the Group's financial assets are as follows:

	Note	2022	2021
Cash	10	P 395,437,450	P 390,922,403
Trade and other receivables, net*	11	561,999,370	599,353,896
Due from related parties	14,32	124,407,283	123,249,909

**Excludes advances to suppliers*

c) Allowance for credit losses of receivables

The Group reviews its impaired receivables at each reporting date to assess whether an additional provision for credit losses should be recorded in the profit and loss. In, particular, judgment by Management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about number of factors and actual results may differ, resulting in future changes to the allowance.

The carrying value of receivables amounted to P656,550,820 and P699,973,888 as of December 31, 2022, and 2021, respectively (Note 11).

No allowance for credit losses were recognized as of December 31, 2022 and 2021. No write-off and recoveries either were recognized by the Group as of December 31, 2022 and 2021.

d) Impairment of trade and other receivables and due from related parties

The Group reviews its receivables at each reporting date to assess whether an impairment loss should be recognized in its consolidated statement of income or receivables balance should be written off. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance is required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance. Moreover, management evaluates the presence of objective evidence of impairment which includes observable data that comes to the attention of the Group about loss events such as but not limited to significant financial difficulty of the counterparty, a breach of contract, such as a default or delinquency in interest or principal payments, probability that the borrower will enter bankruptcy or other financial re-organization.

The carrying values of trade and other receivables and due from related parties and the related allowance for impairment losses provided as at December 31, 2022 and 2021 are disclosed in Notes 11, and 13.

e) Impairment of equity investments

The Group classifies certain financial assets as equity investments and recognizes movements in fair value in OCI and equity. When the fair value declines, management makes assumptions about the decline in value to determine whether it is an impairment that should be recognized in profit or loss. Impairment may be appropriate when there is evidence of deterioration in the financial wealth of investee, industry and sector performance and operational and financing cash flows. The Company treats financial assets at other comprehensive income as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires judgment.

The Group treats "significant" generally as 20% or more of the original cost of the investment, and "prolonged," longer than 12 months. In addition, the Company evaluates other factors including normal volatility in share price for quoted securities and the future cash flows and the discount factors for unquoted securities.

Accumulated unrealized loss recognized for the years ended December 31, 2022 and 2021 amounted to ₱300,000. The carrying amount of financial assets at FVOCI amounted to ₱50,000 as at December 31, 2022 and 2021 (Note 15).

f) Estimation of net realizable values and impairment of inventories

The Group provides an allowance to reduce inventories to net realizable values whenever the utility of inventories becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. The estimate of the net realizable value is reviewed regularly.

The carrying values of inventories and the related allowance for inventory obsolescence are disclosed in Note 12.

g) Estimation of useful lives of property, plant and equipment

The Group reviews annually the estimated useful lives of property, plant and equipment based on the period over which the assets are expected to be available for use. It is possible that future results of operations could be materially affected by changes in these estimates. A reduction in the estimated useful lives of property, plant and equipment would increase recorded depreciation and amortization expense and decrease the related asset accounts.

The estimated useful lives of property, plant and equipment are discussed in Note 3.10.

h) Impairment of goodwill

The Group performed its annual impairment test on its goodwill as of reporting date. The recoverable amounts of the intangible assets were determined based on value in use calculations using cash flow projections from financial budgets approved by management covering a five-year period. The following assumptions were also used in computing value in use:

Growth rate estimates – growth rates were based on experiences and strategies developed for the various subsidiaries. The prospect for the industry was also considered in estimating the growth rates.

Discount rates – discount rates were estimated based on the industry weighted average cost of capital, which includes the cost of equity and debt after considering the gearing ratio. Value-in-use is the most sensitive to changes in discount rate and growth rate.

i) Impairment of non-financial assets other than inventories

The Group assesses at each reporting date whether there is an indication that the carrying amount of all non-financial assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. At the reporting date, the Group assesses whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated.

Management has reviewed the carrying values of the Group's property, plant and equipment as at December 31, 2022 and 2021 for impairment. Based on the results of its evaluation, there were no indications that the property and equipment were impaired, thus, no impairment loss needs to be recognized in 2022, 2021 and 2020.

j) Realizability of deferred tax assets

Management reviews carrying amount of deferred tax assets at each reporting date. The carrying amount of deferred tax assets is reduced to the extent that it is no longer probable that sufficient taxable profit will be available against which the related tax assets can be utilized.

The Group's recognized deferred tax assets amounted to ₱15,207,986 and ₱15,880,184 as at December 31, 2022 and 2021, respectively (see Note 34). The Group has not recognized deferred tax assets on NOLCO of the Parent Company as at December 31, 2022 and 2021. The non-recognition of deferred tax assets on NOLCO is based on management's assumption that there will be no available future taxable profits for the Parent Company.

k) Incremental borrowing rate of lease liability

Incremental borrowing rate is the rate of interest that a lessee would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

The incremental borrowing rate is determined by the Group on the commencement date of the lease. As a result, it incorporates the impact of significant economic events and other changes in circumstances arising between lease inception and commencement.

This incremental rate is used to measure the lease liability at the present value of lease payments that are not paid at the end of lease term. In 2022, the Group's determined incremental rates used to compute the carrying value of lease liability amounting to a total of ₱70,548,933 are 7% and 5% (Note 35).

l) Estimation of retirement benefits

The determination of the Group's obligation and cost for retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. The assumptions described in Note 31 include, among others, discount rates, average remaining working lives and rates of compensation increase. While management believes that the assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect pension and other retirement obligations.

The details of the Group's retirement benefits are provided in Note 33.

4.3 Provision and contingencies

The estimate of the probable costs for the resolution of possible claims has been developed in consultation with outside legal counsel and is based upon an analysis of potential results.

NOTE 5 – BUSINESS COMBINATION

In 2013, the stockholders approved the investment in and/or acquisition of various businesses and operating companies, including 51% controlling interest in MOSC, majority-owned by the Parent Company's Chairman and President, Yang Chi Jen. A Subscription Agreement acquiring 51% controlling interest in MOSC was consequently executed on January 10, 2014.

In 2017, the Company made additional subscription to 117,091,837 primary shares of its subsidiary, MOSC, at par value of Php1.00 per share, to maintain the Company's 51% ownership in MOSC.

In 2017, Yang Chi Jen, subscribed to the remaining 365,785,000 unissued shares of the Parent Company at Php0.20 per share, double the lowered par value of Php0.10 per share, equivalent to a total amount of Php73,157,000 with premium of Php36,578,500. The BOD likewise approved the subscription by Yang Chi Jen to at least 25% of the proposed increase in authorized capital stock of the Company at Php0.20 per share. The increase in authorized capital stock of the Company was initially pegged from Php250,000,000 to Php750,000,000 but was later amended during the year to an amount as may be determined by the BOD but not exceeding Php10 Billion.

On March 18, 2021, the BOD determined and approved the initial additional increase of the authorized capital stock of the Company from P250 Million to P750 Million divided into 5,000,000 common shares at par value of P0.10 per share. The proceeds of the transaction shall be invested in MOSC, for the purpose of supporting its operations and expanding its production lines for fish and meat caning, meat and seafoods processing, and sauces.

NOTE 6 – SUBSIDIARY WITH MATERIAL NON-CONTROLLING INTERESTS

In determining whether an NCI is material to the Parent Company, management employs both quantitative and qualitative factors to evaluate the nature of, and risks associated with, the Parent Company's interests in these entities, and the effects of those interests on the Parent Company's financial position. Factors considered include, but not limited to, carrying value of the subsidiary's NCI relative to the NCI recognized in the Parent Company's consolidated financial statements, the subsidiary's contribution to the Parent Company's consolidated revenues and net income, and other relevant qualitative risks associated with the subsidiary's nature, purpose and size of activities.

Based on management's assessment, the Group has concluded that MOSC and C3 are considered subsidiaries with NCI that is material to the Parent Company.

The ability of the subsidiary to pay dividends or make other distributions or payments to their shareholders (including the Parent Company) is subject to applicable law and other restrictions contained in financing agreements, shareholder agreements and other agreements that prohibit or limit the payment of dividends or other transfers of funds.

The summarized financial information of MOSC and C3 are presented below, before inter-company eliminations but after consolidation adjustments for goodwill, other fair value adjustments on acquisition and adjustments required to apply uniform accounting policies at group level.

	2022			2021		
	MOSC	C3	Total	MOSC	C3	Total
Equity share held by NCI	49%	49%		49%	49%

NOTE 7 – FAIR VALUE MEASUREMENT

The following methods and assumptions were used to estimate the fair value of each asset and liability for which it is practicable to estimate such value:

Cash, trade and other receivables, trade and other payables and short-term borrowings. Carrying amounts approximate their fair values due to the relatively short-term maturities of these instruments.

Amounts due from and due to related parties. Carrying amounts of due from and due to related parties which are collectible/payable on demand approximate their fair values. Due from related parties are unsecured and have no foreseeable terms of repayments.

Long-term borrowings. The fair value of long-term borrowings is based on the future undiscounted value of future cash flows (interests and principal) using the applicable rates for similar types of loans.

Fair value hierarchy assets and liabilities

Assets and liabilities carried at fair values are required to be disclosed.

- Level 1: quoted (unadjusted) prices in active market for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value that are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows the Company's asset carried at fair value:

	Level 1	Level 2	Level 3
December 31, 2022			
<i>Financial asset at FVOCI</i>			
Investment in golf share (Note 15)	P <u>50,000</u>	P <u>-</u>	P <u>-</u>
December 31, 2021			
<i>Financial asset at FVOCI</i>			
Investment in golf share (Note 15)	P <u>50,000</u>	P <u>-</u>	P <u>-</u>
December 31, 2020			
<i>Financial asset at FVOCI</i>			
Investment in golf share (Note 15)	P <u>50,000</u>	P <u>-</u>	P <u>-</u>

The basis of the fair value of financial assets at FVOCI is the price of its most recent transaction based on Level 1 of the fair value hierarchy disclosed in Note 3.4.

Financial assets and liabilities measured at amortized cost for which fair values are disclosed:

	December 31, 2022		December 31, 2021

Total	P <u>1,129,056,357</u>	P <u>239,359,819</u>	P <u>1,240,832,245</u>	P <u>229,520,456</u>

*Exclusive of advances to suppliers and advances to employees

**Exclusive of government payables

For cash, with fair value included in Level 1, management considers that the carrying amounts of these financial instruments approximate their fair values due to their short-term duration.

There had been no transfers between Level 1, Level 2 and Level 3 for the years ended December 31, 2022 and 2021.

The fair values of the financial assets and financial liabilities included in Level 3 which are not traded in an active market is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties, or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

NOTE 8 - FINANCIAL INSTRUMENTS

The following table shows the classification, carrying values and fair values of the Group's financial assets and financial liabilities as at December 31, 2022 and 2021:

	2022		2021	
	Carrying value	Fair value	Carrying value	Fair value

NOTE 9 - FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

7.1 General objectives, policies and processes

The BOD has overall responsibility and authority for the determination of the Group's risk management objectives and policies and designing and operating processes that ensure the effective implementation of such objectives and policies. It establishes a forum of discussion of the Group's approach to risk issues in order to make relevant decisions.

The overall objective of the BOD is to set policies that seek to reduce risk as far as possible without unduly affecting the Group's competitiveness and flexibility. Further details regarding these policies are set out below.

7.2 Financial risk management objectives and policies

The Group is exposed through its operations to credit risk, liquidity risk and market risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

The policies for managing specific risks are summarized below:

(a) Market risk

Market risk is the risk that the fair value of future cash flows of financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and commodity price risk. Financial instruments affected by market risk include bank borrowings.

i. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is not exposed to interest rate risk as the Group's interest rate on bank loans is fixed and pre-determined at the inception of the contract.

ii. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to cash equivalent denominated in a currency different from the Group's functional currency. The principal currency risks to which the Group is exposed involve the U.S. Dollar (US\$), Taiwan Dollars (TW\$), and Hongkong Dollars (HK\$).

The Group is exposed to foreign exchange risk on its foreign currency denominated monetary asset since the effect of foreign currency changes on the consolidated financial statements is material.

iii. Commodity price risk

Commodity price risk is the risk related to the volatility of price of certain commodities. The Group is not exposed to this risk as its operations do not constitute goods which prices are volatile.

(b) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The receivable balances are monitored on an ongoing basis with the result that the Group's exposure to impairment is not significant. The Group has a credit and collection department that is consolidated and independent from the sales department. The Group instituted this consolidated department even though the normal practice in its industry is that the salespeople are also the ones who collect the receivables. The Group deals only with credit worthy counterparty duly approved by the management.

The credit quality of the financial assets that are neither past due or impaired is considered to be good quality and expected to be collectible without incurring any credit losses.

Credit losses from balances with banks are managed by ensuring that the Group's deposit arrangements are with reputable and financially sound counterparty.

The following table provides information regarding the maximum credit risk exposure of the Group arising from its financial assets as at December 31 at gross amounts:

	2022	2021
Financial assets at amortized cost		
Cash (Note 10)	₱ 395,437,450	₱ 390,922,403
Trade and other receivables (Note 11) *	561,999,370	615,993,595
Due from related parties (Notes 14 and 32)	124,407,283	123,249,909

Total	₱652,601,165	₱ 66,438,645	₱83,666,162	₱315,668,962	₱16,639,699	₱1,130,546,443

There were no other credit enhancements attached to the Group's financial assets aside from assigned trade receivables.

Credit quality per class of financial assets

The Group's bases in grading its financial assets are as follows:

High grade- These are receivables which have a high probability of collection (the counterparty has the apparent ability to satisfy its obligation and the security on the receivables are readily enforceable).

Standard grade- These are receivables where collections are probable due to the reputation and the financial ability of the counter party to pay but have been outstanding for a certain period of time.

Substandard grade- These are receivables that can be collected provided the Group makes persistent effort to collect them.

The table shows the credit quality by class of financial assets of the group based on the historical experience with the corresponding parties as at December 31, 2022 and 2021.

December 31, 2022							
	Neither past due nor impaired				Past due but not impaired	Impaired	Total
	High grade	Standard grade	Substandard grade	Unrated			
Financial assets at amortized cost							
Cash	P395,437,450	P -	P -	P -	P -	P -	P 395,437,450
Trade and other receivables	-	277,119,840	-	-	268,239,831	16,639,699	561,999,370
Due from related parties	-	14,626,720	-	-	109,780,563	-	124,407,283
Refundable security deposits	330,536	-	-	-	-	-	330,536
Financial asset at FVOCI							
Investment in golf share	50,000	-	-	-	-	-	50,000
Total	P395,817,986	P395,817,986	P -	P -	P378,020,394	P 16,639,699	P1,082,224,639

December 31, 2021							
	Neither past due nor impaired				Past due but not impaired	Impaired	Total
	High grade	Standard grade	Substandard grade	Unrated			
Financial assets at amortized cost							
Cash	P390,922,403	P -	P -	P -	P -	P -	P 390,922,403
Trade and other receivables	-	256,830,036	-	-	342,523,860	16,639,699	615,993,595
Due from related parties	-	31,250,000	-	-	91,999,909	-	123,249,909
Refundable security deposits	330,536	-	-	-	-	-	330,536
Financial asset at FVOCI							
Investment in golf share	50,000	-	-	-	-	-	50,000
Total	P391,302,939	P288,080,036	P -	P -	P434,523,769	P 16,639,699	P1,130,546,443

The credit quality of the Group's financial assets is evaluated using internal credit rating. Financial assets are considered high grade if the counterparties are not expected to default in setting their obligations, thus credit risk exposure is minimal. These counterparties include banks, customers with no past due accounts and related parties who pay on or before due date.

The Group has no financial assets whose terms have been renegotiated.

(b) Liquidity risk

This represents the risk or difficulty in raising funds to meet the Group's commitment associated with financial obligation and daily cash flow requirement. The Group is exposed to the possibility that adverse exchanges in business environment and/or its operations would result to substantially higher working capital requirements and the subsequent difficulty in financing additional working capital.

The Group addresses liquidity concerns primarily through cash flows from operations and short-term borrowings, if necessary. The Group has credit lines with several of the top banks of the Philippines which gives its financial flexibility in its operations. The Group likewise regularly evaluates other financing instruments to broaden the Group's range of financing resources.

The following table summarizes the maturity profile of the Group's other financial liabilities as at December 31, 2022 and 2021, respectively, based on the contractual undiscounted payments:

December 31, 2022				
	On demand	Within 1 year	More than 1 year	Total
Other financial liabilities				
Trade and other payables*	P 80,198,714	P 13,138,070	P -	P 93,336,784
Due to a related party	146,023,035	-	-	146,023,035
Borrowings	-	1,058,507,424	-	1,058,507,424
Lease liability	-	17,631,255	52,893,000	70,548,933
	P 226,221,749	P 1,089,276,749	P 52,893,000	P 1,368,416,176

*Exclusive of government payables

*Exclusive of government payables

Capital risk management

The primary objective of the Group's capital management is to ensure its ability to continue as a going concern and that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The BOD has overall responsibility for monitoring of capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the Group's external environment and the risks underlying the Group's business operations and industry.

The Group monitors capital on the basis of the debt-to-equity ratio, which is calculated as total debt less cash then divided by total equity. Total debt is equivalent to total liabilities shown in the consolidated statements of financial position. Total equity comprises all components of equity including share capital and retained earnings.

	2022	2021
Net debt	₱ 1,416,602,859	₱ 1,514,506,392
Equity (capital deficiency)	<u>664,906,493</u>	<u>678,908,533</u>
Net debt to equity ratio	<u>2.13:1</u>	<u>2.23:1</u>

The Group through the Finance function sets operational targets and performance indicator in order to assure that the capital and returns requirement are achieved. Appropriate monitoring and reporting systems accompany these target and indicators to assess the achievement of the Group's goals and institute appropriate action.

No changes were made in the objectives, policies and processes in 2022 and 2021.

The Group has no externally imposed capital requirements.

NOTE 10 - CASH

The account consists of:

Particulars	2022	2021
Cash on hand	₱ 234,753,503	₱ 252,399,131
Cash in banks	<u>160,683,947</u>	<u>138,523,272</u>
Total	<u>₱ 395,437,450</u>	<u>₱ 390,922,403</u>

Cash in banks earn interest based on the banks' average deposit rates. Finance income from cash in banks amounted to ₱34,979, ₱93,832, and ₱96,986 for 2022, 2021 and 2020 respectively.

Included in cash in banks are amounts in a currency other than the Group's functional currency as follows:

2022	2021	2020
------	------	------

Cash in banks (US dollars) US\$ 691,660 US\$ 527,340 US\$ 971,000

NOTE 11 - TRADE AND OTHER RECEIVABLES, NET

The account consists of:

Particulars	2022	2021
Trade	P 578,639,069	P 615,993,595
Advances to suppliers	<u>94,551,450</u>	<u>100,619,992</u>
Sub-total	P 673,190,519	P 716,613,587
Allowance for impairment	<u>(16,639,699)</u>	<u>(16,639,699)</u>
Total	P <u>656,550,820</u>	P <u>699,973,888</u>

Trade receivables are from customers of the Group and are not interest bearing. Normal credit terms of trade receivables range from 30 to 60 days.

Advances to suppliers represent advance payments made to suppliers for purchase of goods. These are deducted from the purchase price upon receipt of goods.

Advances to employees pertain to salary advances made by the employees and are paid through salary deductions. The Group provides allowance for impairment loss on receivables that are past due based on estimated unrecoverable amounts, as determined by management.

In determining the recoverability of trade receivables, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. Accordingly, management believes that there is no further credit provision required in excess of the allowance for impairment loss on trade receivables.

Movements of allowance for impairment loss on trade and other receivables are as follows:

Particulars	2022	2021
At January 1	P 16,639,699	P 16,639,699
Impairment loss during the year	<u>-</u>	<u>-</u>
At December 31	P <u>16,639,699</u>	P <u>16,639,699</u>

Management believes that the carrying value of trade and other receivables approximates its fair value due to its short-term nature.

NOTE 12- INVENTORIES, NET

The account consists of:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
At cost			
Octopus	₱ 172,429,220	₱ 120,764,231	₱ 169,713,798

Abalone	7,585,859	31,414,034	45,629,906
Groupers	6,152,801	20,704,662	24,438,698
Vannamei fish	5,109,403	5,109,403	5,109,403
Leather jacket fish	2,783,039	36,749,390	5,478,520
Crablets	2,671,372	2,671,372	2,671,372
Lobster	762,220	8,642,629	66,554,979
Ribbon fish	607,042	607,042	607,042
Other aquaculture products	33,898,575	17,799,232	18,497,880
Total	₱ 448,590,730	₱ 466,849,817	₱ 492,448,597
Allowance for inventory obsolescence	<u>(4,703,235)</u>	<u>(4,703,235)</u>	<u>(4,703,235)</u>
Net realizable value	₱ <u>443,887,495</u>	₱ <u>462,146,582</u>	₱ <u>487,745,362</u>

Cost of inventories recognized as cost of sales amounted to ₱936,066,296, ₱918,362,850, and ₱762,577,190 in 2022, 2021 and 2020 respectively (see Note 28).

Movement of allowance for inventory obsolescence is as follows:

<u>Particulars</u>	<u>2022</u>	<u>2021</u>	<u>2020</u>
At January 1	₱ 4,703,235	₱ 4,703,235	₱ 4,703,235
Impairment loss during the year (Note 30)	-	-	-
Write-off	-	-	-
At December 31	₱ <u>4,703,235</u>	₱ <u>4,703,235</u>	₱ <u>4,703,235</u>

No allowance for inventory impairment was provided in 2022, 2021 and 2020 since aquatic products which did not meet regulatory bodies' standard are reprocessed and/or resold.

NOTE 13- PREPAYMENTS AND OTHER CURRENT ASSETS

The account consists of:

<u>Particulars</u>	<u>2022</u>	<u>2021</u>
Supplies	₱ 61,296,513	₱ 67,554,799
Input VAT	48,018,469	40,000,684
Prepaid insurance	10,709,702	10,017,988
Prepaid tax and other creditable withholding taxes	797,788	800,600
Guaranty deposit	99,979	99,979
Total	₱ 120,922,451	₱ 118,474,050
Less: Allowance for impairment	<u>(722,433)</u>	<u>(722,433)</u>
Net realizable value	₱ <u>120,200,018</u>	₱ <u>117,751,617</u>

NOTE 14 – DUE FROM RELATED PARTIES

The account consists of:

Particulars	2022	2021
Advances to MOSC - Vietnam	₱ 92,901,774	₱ 91,744,400
Advances to Philippine 101 Hotel, Inc. (Note 32)	31,250,000	31,250,000
Advances to stockholder (Note 32)	255,509	255,509
Total	<u>124,407,283</u>	<u>123,249,909</u>

The advances are unsecured, non-interest bearing and payable on demand.

On March 22, 2017, the Company's BOD approved the acquisition of 49% of the Philippine 101 Hotel, Inc., a domestic corporation majority owned by Yang Chi Jen. As of December 31, 2021, the parties have yet to complete the acquisition.

NOTE 15 - FINANCIAL ASSET AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

The account consists of:

Particulars	2022	2021
Investment in golf share	₱ <u>50,000</u>	₱ <u>50,000</u>

There was no movement of the allowance for impairment loss for the year ended December 31, 2021 and 2020.

The investment in golf share consists of one (1) membership share in Eagle Ridge golf & Country Club Inc. and is classified as financial asset at FVOCI measured at level 1 of the fair value hierarchy in the consolidated statements of financial position (see Note 7). The movement in the account is summarized as follows:

Particulars	2022	2021
At cost	₱ 350,000	₱ 350,000
Accumulated unrealized loss on market value	<u>(300,000)</u>	<u>(300,000)</u>
Total	₱ <u>50,000</u>	₱ <u>50,000</u>

There was no movement in the accumulated unrealized loss on market value of investment in golf share as of December 31, 2022 and 2021.

NOTE 16 – INVESTMENT IN ASSOCIATES

As of December 31, 2021, the account consists of:

	Ownership	Cost	Equity in net earnings		Cumulative Share in Net Earnings (Loss) to Date	Year –end Total 2022
			Cumulative Balance up to December 31, 2021	Net Loss (Note 24)		
Pacific Seafoods Corporation	47.57%	₱ 39,593,136	₱ 26,444,112	₱ (510,992)	₱ (11,202,268)	₱ 28,390,868

As of December 31, 2021, the account consists of:

	Ownership	Cost	Equity in net earnings			Year –end Total 2021
			Cumulative Balance up to December 31, 2020	Net Loss	Cumulative Share in Net Earnings to Date	
Pacific Seafoods Corporation	47.57%	₱ 34,626,349	₱ 24,280,930	₱ (345,857)	₱ (10,691,276)	₱ 26,444,112

On May 31, 2017, the Parent Company entered into an agreement acquiring 49% ownership and control of Pacific Seafoods Company Limited (PASECO), a non-stock Vietnamese enterprise primarily engaged in aqua foods and products processing and preservation. The acquisition price is 17.15 Billion Vietnamese Dongs.

As of December 31, 2022 and 2021, the Parent Company's percentage of stock ownership in PASECO is 47.57%.

NOTE 17 – PROPERTY, PLANT AND EQUIPMENT, NET

The details of movements in this account as of December 31, 2022 are as follows:

Depreciation and amortization expense for the year ended December 31, 2021 are charged to “Cost of Sales” and “General and administrative expenses” amounting ₱65,842,435 and ₱8,255,456, respectively. (see Notes 28 and 29)

Depreciation expense for the years ended December 31, 2020 and 2019 recognized in the consolidated financial statements of the Group were ₱73,138,269 and ₱69,513,713.

NOTE 18 - GOODWILL

The Group's goodwill pertains to the acquisition of MOSC on January 10, 2014. The account balance amounted to ₱14,521,202 in both years 2022 and 2021.

The recoverable amount has been determined based on the value-in-use calculation using cash flow projections from financial budgets approved by the management covering five-year period.

Based on management's assessment, the carrying value of goodwill is not impaired, thus, no impairment loss was recognized for the years ended December 31, 2022, and 2021.

NOTE 19 - OTHER NON-CURRENT ASSETS

The account consists of refundable security deposits related to the lease of plants located in Navotas, Parañaque, Cebu, etc. As of December 31, 2022 and 2021, the refundable security deposits of the Group both amounted to ₱330,536.

NOTE 20 – TRADE AND OTHER PAYABLES

The account consists of:

Particulars	2022	2021
Trade payables	₱ 85,278,612	₱ 86,626,627
Accrued expenses	8,058,172	8,203,823
Government payables	3,995,447	479,877
Income tax	430,659	307,878
Total	₱ 97,762,890	₱ 95,618,205

Trade payables from suppliers of marine products are non-interest bearing and with normal credit terms are 30 to 60 days.

Accrued expenses include unbilled expenses which are normally settled within one (1) year.

Government liabilities include withholding taxes, Social Security System (SSS) premiums and other liabilities to the government which are normally settled within 30 days.

NOTE 21 – DUE TO RELATED PARTIES

There were no breaches of loan agreement terms such as any defaults of principal and interest of these loans payable during the period.

NOTE 23 – LEASE LIABILITY

The account consists of:

Particulars	2022	2021
Lease liability, current	₱ 52,893,000	₱ 70,524,255
Lease liability, non-current	17,655,933	8,882,949
Total	₱ 70,548,933	₱ 79,407,204

Finance cost attributable to the lease liability as of December 31 amounted to ₱7,191,897 and ₱7,414,119 in 2022 and 2021 (Note 31).

NOTE 24 – DEPOSIT FOR FUTURE SHARE SUBSCRIPTION
--

On December 18, 2020, the stockholders of the Parent Company approved the increase of the authorized capital stock up to an amount to be determined by the Board, not exceeding P10 Billion, and subscription to at least 25% thereof by the Company's Chairman/President and CEO, Yang Chi Jen, at ₱0.20 per share.

On March 18, 2021, the members of the Board of Directors approved the additional increase of the authorized capital stock of the Corporation from ₱250 Million to ₱750 Million, divided into 5,000,000,000 common shares at par value of ₱0.10/share.

The transaction pertains to private placement through an increase in authorized capital stock subject to and effective upon the approval of the Securities and Exchange Commission. The 5,000,000,000 common shares shall be subscribed by Yang Chi Jen (Michael Yang) with subscription price per share of ₱0.20 and total subscription amount of ₱1,000,000,000.

The proceeds of the transaction shall be invested by the Parent Company in its subsidiary, Millennium Ocean Star Corporation (MOSC), for the purpose of supporting its operations and expanding its production lines for fish and meat canning, meat and seafoods processing, and sauces.

The aggregate value of the consideration is P1 Billion. Total initial payment is at least 25% or equivalent to P250 Million, payable prior to the filing of the application before the Securities and Exchange Commission. The balance is payable in 5 years, unless sooner settled or a capital call is made.

On September 30, 2022, the Board of Directors, however, amended the timeline to proceed with the application for increase of the authorized capital stock of the Corporation, such that the same shall proceed only after the approval of the additional listing of the remaining unlisted shares of the Corporation and service of the lock-up period, as may be applicable.

Deposit for future stock subscription represents payments made on subscription of shares which cannot be directly credited to 'Capital Stock' pending application for the approval of the proposed increase presented for filing /filed with the SEC and registration of the amendment to the Articles of Incorporation increasing capital stock.

In addition, deposit for future stock subscription shall be classified under equity if all of the following elements are present as at reporting date:

- a. The unissued authorized capital of the entity is insufficient to cover the amount of shares indicated in the contract;
- b. There is Board of Directors' approval on the proposed increase in authorized capital stock (for which a deposit was received by the corporation);
- c. There is stockholders' approval of said proposed increase; and
- d. The application for the approval of the proposed increase has been presented for filing or has been filed with the Commission.

The deposit for future share subscription is recognized as a noncurrent liability in the consolidated statements of financial position since not all of the foregoing elements are present.

The deposit for future share subscription is recognized as equity in the statements of consolidated financial position since all the foregoing elements are present as of December 31, 2022.

As of December 31, 2022 and 2021, deposit for future share subscription both amounted to ₱287,636,935.

NOTE 25 – SHARE CAPITAL

Details of the Parent Company's share capital are as follows:

	2022		2021	
	Number of Shares	Amount	Number of Shares	Amount
Authorized shares at P0.1 par value per share	<u>2,500,000,000</u>	<u>P 250,000,000</u>	<u>2,500,000,000</u>	<u>P 250,000,000</u>
Outstanding shares:				
Issued but not yet paid	-	P -	-	P -
Issued and fully paid	<u>2,500,000,000</u>	<u>250,000,000</u>	<u>2,500,000,000</u>	<u>250,000,000</u>
Return of capital	<u>(130,315,381)</u>	<u>(13,031,538)</u>	<u>-</u>	<u>-</u>
	<u>2,369,684,619</u>	<u>P 236,968,462</u>	<u>2,500,000,000</u>	<u>P 250,000,000</u>

There were no issuances of shares during 2022 and 2021.

Additional increase in authorized capital stock

On March 18, 2021, the members of the Board of Directors of the Parent Company approved the initial increase of the authorized capital stock of the Company from P250 Million to P750 Million, divided into 5,000,000,000 common shares at par value of P0.10/share.

On September 30, 2022, the Board of Directors, however, amended the timeline to proceed with the application for increase of the authorized capital stock of the Parent Company, such that the same shall proceed only after the approval of the additional listing of the remaining unlisted shares of the Parent Company and service of the lock-up period, as may be applicable.

Return of capital

On September 30, 2022, the members of the Board of Directors approved the rescission of subscription of various stockholders with total shares of 130,315,381 and total par value of P13,031,538, for failure of the said stockholders to provide the requirements and assistance needed within a considerable period since the transaction.

The 130,315,381 common shares were removed from the issued and outstanding shares of the Parent Company, and any previously issued certificates of stocks representing said shares were surrendered to and canceled by the Parent Company.

NOTE 26 – ADDITIONAL PAID-IN CAPITAL

The movements of additional paid-in capital are as follows:

Particulars	2022	2021
At January 1	P 36,578,500	P 36,578,500
Share premium on common shares issued during the year (Note 15)	-	-
Gross proceeds	-	-
Par value of issued shares	<u>-</u>	<u>-</u>
At December 31	<u>P 36,578,500</u>	<u>P 36,578,500</u>

Additional paid-in capital arises when the amount subscribed is in excess of nominal values.

NOTE 27 - REVENUES

The account consists of:

Fair value at date of business combination	-	-	-
Remeasurements in OCI, net of deferred tax	<u>-</u>	<u>-</u>	<u>-</u>
At December 31	₱ <u>7,455,587</u>	₱ <u>7,455,587</u>	₱ <u>7,455,587</u>

c. Actuarial assumptions

Particulars	2022	2021	2020
Actuarial gain recognized	P -	P -	P -
Deferred tax	-	-	-
Actuarial gain recognized, net	P -	P -	P -
Non-controlling interest	-	-	-
Attributable to owners of the Parent Company (51%)	P -	P -	P -

The significant actuarial assumptions were as follows:

	2022	2021	2020
Discount rate	4.80%	4.80%	4.80%
Salary projection rate	10%	10%	10%

Sensitivity analysis

The sensitivity analysis below has been determined based on a reasonably possible change of each significant assumption on the defined benefit obligation as at the December 31, 2020, 2019 and 2018 with all other variables held constant:

	Reasonably possible change	2022	2021	2020
Discount rate	+100 bps*	P (4,751,750)	P (4,751,750)	P (4,751,750)
	-100 bps*	5,893,767	5,893,767	5,893,767
Salary increase rate	+100 bps*	5,214,207	5,214,207	5,214,207
	-100 bps*	(4,355,315)	(4,355,315)	(4,355,315)

*100bps is equivalent to 1%

The defined benefit obligation is calculated using the discount rate set with reference to government bonds.

When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the retirement benefit liability recognized in the consolidated statements of the financial position.

There were no changes from the previous period in the methods and assumptions used in preparing the sensitivity analysis.

d. Maturity analysis

Shown below is the maturity analysis of the undiscounted benefit payments:

	2022	2021	2020
Less than 1 year	P 1,160,286	P 1,160,286	P 1,160,286
Between 1 to 5 years	1,281,513	1,281,513	1,281,513
Between 5 to 10 years	8,783,495	8,783,495	8,783,495

NOTE 34 – INCOME TAXES

On March 26, 2021, the Republic Act (RA) 11534, known as “The Corporate Recovery or Tax incentives for Enterprises Act” (Create Act), was passed into law. The salient provisions of the Create Act applicable to the Company are as follow:

- Effective July 1, 2020, the corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding ₱5,000,000 and with total assets not exceeding ₱100,000,000, excluding land on which the particular business entity’s office, plant, and equipment are situated during the taxable year for which the tax is imposed at 20%. All other domestic corporations and resident foreign corporations will be subject to 25% income tax;
- Minimum corporate income tax (MCIT) rate reduced from 2% to 1% effective July 1, 2020, to June 30, 2023; and
- The imposition of improperly accumulated earnings is repealed.

a. The components of the Group’s provision for income tax are as follows:

	2022	2021	2020
Current	₱ 656,518	₱ 409,187	₱ 414,649
Deferred	628,318	(71,799)	(950,000)
	<u>₱ 1,284,836</u>	<u>₱ 337,388</u>	<u>₱ (535,351)</u>

The reconciliation of the provision from income tax computed at the statutory tax rates to the provision for income tax reported in the consolidated statements of comprehensive income as follows:

	2022	2021	2020
Income (loss) before tax	₱ 371,319	₱ (1,807,258)	₱ (8,396,258)
Tax expense computed at statutory tax rate	656,518	409,187	414,649
Deductible temporary differences and carry forward benefits and excess MCIT for which no deferred income tax assets were recognized	628,318	(71,799)	(950,000)
Nondeductible expenses	-	-	-
Income subject to final tax	-	-	-
Total	<u>₱ 1,284,836</u>	<u>₱ 337,388</u>	<u>₱ (535,351)</u>

The components of deferred tax assets as at December 31, 2022, 2021 and 2020 are as follows:

	2022	2021	2020
At January 1	₱ 15,880,184	₱ 15,808,385	₱ 17,463,907
Allowance for impairment loss on trade and other receivables	-	-	-
Allowance for impairment loss on other assets	-	-	52,724
Allowance for inventory obsolescence	-	-	-
Tax effect of leases under PFRS 16	(43,879)	22,486	(46,893)
NOLCO	(628,319)	708,075	944,168
Tax effect of change in income tax rate	-	(658,762)	(2,605,521)
At December 31	<u>₱ 15,207,986</u>	<u>₱ 15,880,184</u>	<u>₱ 15,808,385</u>

The Group did not recognize deferred tax assets on the following deductible temporary differences and carry forward benefits of NOLCO since management believes that it is more likely than the Group will not be able to realize their benefits in the future or prior to their expiration.

The movement of deferred tax asset recognized for the year 2022 is as follows:

Particulars	Tax Base		Beginning Balance	Tax Effect	
	Movement	Tax Rate		Movement	Ending Balance
Accrued retirement liability	₱ -	20%	₱ 257,051	₱ -	₱ 257,051
Allowance for doubtful accounts	-	20%	11,966,518	-	11,966,518
Allowance for inventory obsolescence	-	25%	1,175,809	-	1,175,809
Allowance for impairment loss	-	25%	144,487	-	144,487
NOLCO 2019	(3,572,110)	25%	714,421	(714,421)	-
NOLCO 2020	-	25%	898,220	-	898,220
NOLCO 2021	-	20%	708,075	-	708,075
NOLCO 2022	430,518	20%	-0	86,102	86,102
Tax effect of leases under PFRS 16	-	25%	15,603	(43,879)	(28,276)
Total	₱ (3,141,592)		₱ 15,880,184	₱ (672,198)	₱ 15,207,986

As at December 31, 2022 the Group's NOLCO that can be claimed as deduction from future taxable income and income tax payable, respectively, are as follows:

NOLCO

Year incurred	Amount	Expired	Applied	Ending balance	Expiry
2019	₱ 5,202,668	₱ 1,525,016	₱ 105,541	₱ -	2022
2020	6,110,305	-	-	6,110,305	2025
2021	8,003,486	-	-	8,003,486	2026
2022	430,518	-	-	430,518	2027
	₱ 19,746,977	₱ 1,525,016	₱ 105,541	₱ 14,544,309	

Revenue Regulation (RR) no. 25-2020

On September 30, 2020, The Bureau of Internal Revenue (BIR) releases Revenue Regulations (RR) No. 25-2020, pursuant to the provisions of Section 244 of the National Internal Revenue Code (NIRC) as amended, implementing the Section 4(bbbb) of Republic Act (R.A.) No. 11494, otherwise known as "Bayanihan to Recover as One Act", which stated that notwithstanding the provision of existing laws to the contrary, the net operating loss of the business or enterprise for taxable years 2020 and 2021 shall be carried over as a deduction from gross income for the next five (5) consecutive taxable years immediately following the year of such loss; Provided, That this subsection shall remain in effect even after the expiration of this Act.

NOTE 35 – LEASE AGREEMENTS

The Group as a lessor

The rent income recognized for the years ended December 31, 2022, 2021 and 2020 amounted to ₱1,927,638, ₱1,841,515, and ₱1,244,267 respectively (see Note 30).

The Group as a lessee

The Group has entered into various cancellable lease agreements with different individuals for the lease of plants located in Navotas, Paranaque, Cebu, etc. The lease agreements are renewable every year where terms and conditions are subject to the agreement of both parties.

Under PFRS 16, A lessee may elect not to apply the requirements of this standard to:

- (a) short-term leases; and
- (b) leases for which the underlying asset is of low value

The Group elected not to apply PFRS 16 requirements for the aforementioned lease contract. Related rent expense incurred amounted to ₱6,826,168, ₱1,885,583, and ₱2,978,165 for years 2022, 2021 and 2020, respectively.

As of 2022, the Group has entered into the following renewable lease agreements:

<u>Location</u>	<u>Term</u>	<u>Consummation Date</u>
Bantayan	2 years	October 2021
Bulan, Sorsogon	10 years	April 2021
Estancia, Ilo-ilo	10 years	September 2028
Pasay City	3 years	June 2022
Navotas City	20 years	June 2028
Zamboanga-ALED	4 years	January 2023
Zamboanga-Shiejie	5 years	February 2020

Following the adoption of PFRS 16, the Group recognized right-of-use asset and lease liability over the life of the lease. The asset is calculated as the initial amount of the lease liability, plus any lease payments made to the lessor before the lease commencement date, plus any initial direct costs incurred, minus any lease incentives received.

For leases previously classified as finance lease, the carrying amount of the right-of-use-asset and the lease liability were determined at the carrying amount of the lease asset and lease liability under PAS 17 immediately before recognition on January 1, 2019.

The Group has various finance lease agreements with local banks for the lease of transportation and plant equipment. Lease term ranges from 36 to 60 months, subject to renewal. It carries with it guaranty deposit equivalent to the purchase price should the Company opts to acquire the equipment at the end of the lease term.

As of December 31, 2022, the Group's right-of-use asset, net of accumulated depreciation, and lease liability amounted to ₱14,279,106 and ₱70,548,933 respectively.

Consequently, the Group recognized depreciation expense and interest expense as reduction to the carrying amount of the asset and lease liability amounting to ₱67,408,061 and ₱7,191,897 respectively.

Finance costs arising from these lease agreements amounted to ₱7,191,897, ₱7,414,119, and ₱7,623,028 in December 31, 2022, 2021, and 2020, respectively (see Note 31).

Total rent expense charged to operations for the years ended December 31, 2022, 2021 and 2020 amounted to ₱6,719,025, ₱2,157,5183, and ₱871,060 respectively (see Note 28 and 29).

The refundable security deposit attached to the lease agreement for the rental of the plants amounted to both ₱330,536 as at December 31, 2022 and 2021.

There were no restrictions imposed by these lease agreements nor contingent rent recognized for the years ended December 31, 2022 and 2021.

NOTE 36 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share amounts are calculated by dividing the income (loss) for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding during the year.

The financial information pertinent to the derivation of the basic earnings (loss) per share for the years ended December 31, 2020, 2019, and 2018, are as follows:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Income (loss) attributable to equity holders of the Parent Company	₱ (898,831)	₱ (797,520)	₱ (6,668,679)
Weighted average number of shares outstanding used for computation of basic earnings (loss) per share (a)	2,467,421,155	2,500,000,000	2,500,000,000
Weighted average number of shares outstanding used for computation of diluted earnings (loss) per share (b)	<u>2,467,421,155</u>	<u>2,500,000,000</u>	<u>2,500,000,000</u>
Basic earnings (loss) per share	₱ <u>(0.00036)</u>	₱ <u>(0.00032)</u>	₱ <u>(0.00267)</u>
Diluted earnings (loss) per share	₱ <u>(0.00036)</u>	₱ <u>(0.00032)</u>	₱ <u>(0.00267)</u>

Basic earnings (loss) per share is calculated by dividing the net income (loss) for the year attributable to ordinary equity holders of the Group by the weighted average number of ordinary shares outstanding for the years ended December 31, 2022, 2021 and 2020.

For the purpose of computing the diluted earnings (loss) per share, the effect of dilutive potential ordinary shares for the years ended December 31, 2022, 2021 and 2020 is added to the weighted average number of shares outstanding during the year. There are no dilutive potential ordinary shares for the years 2022, 2021 and 2020.

The reconciliation of the average number of shares outstanding in 2022, 2021 and 2020 is as follows:

(a) Average number of shares outstanding used for the computation of basic earnings (loss) per share

	Issuances during the year			Number of shares outstanding			Weighted average number of shares		
	2022	2021	2020	2022	2021	2020	2022	2021	2020
January 1	-	-	-	2,500,000,000	2,500,000,000	2,500,000,000	2,500,000,000	2,500,000,000	2,500,000,000
September 30	-	-	-	2,369,684,619	2,500,000,000	2,500,000,000	2,467,421,155	2,500,000,000	2,500,000,000
	-	-	-	2,369,684,619	2,500,000,000	2,500,000,000	2,467,421,155	2,500,000,000	2,500,000,000

(b) Average number of shares outstanding used for the computation of diluted earnings (loss) per share

	Issuances during the year			Number of shares outstanding			Weighted average number of shares		
	2022	2021	2020	2022	2021	2020	2022	2021	2020
January 1	-	-	-	2,500,000,000	2,500,000,000	2,500,000,000	2,500,000,000	2,500,000,000	2,500,000,000
September 30	-	-	-	2,369,684,619	2,500,000,000	2,500,000,000	2,467,421,155	2,500,000,000	2,500,000,000
	-	-	-	2,369,684,619	2,500,000,000	2,500,000,000	2,467,421,155	2,500,000,000	2,500,000,000

NOTE 37 – OPERATING SEGMENTS

The CEO is the Group's CODM. Management has determined the operating segments based on the reports reviewed by the CEO that are used to make strategic decisions.

The CEO considers the business based on the differences in the Group's product and services. Management considers the performance based on the two revenue-generating activities by the Group: the exporting and holding operations.

The reportable operating segments of exporting operations derive its revenue primarily from the export sale of aquatic and marine products. The revenue of the reportable segments arises solely external customers outside the Philippines jurisdiction.

The operating segments are organized and managed separately according to the different products, with each segment representing a strategic business unit that offers products sold through wholesale or retail or services rendered in farming operations. These divisions are the basis on which the Group reports its primary segment information. All operating business segments used by the Group meet the definition of a reportable segment under PFRS 8, Operating Segments.

The CEO assesses the performance of the operating segments based on a measure of Earnings Before Interests, Taxes and depreciation and Amortization (EBITDA). This measurement basis excludes the effects of non-recurring expenditure from the operating segments and common operating expenses. Interest expense is not allocated to segments, as this type of activity is driven by the central treasury function, which manages the cash position of the Group.

Segment assets and liabilities

Segment assets include all operating assets used by a segment and consist principally of receivables. Segment liabilities include all operating liabilities and consist principally of trade and other payables.

Segment transactions

Segment sales, expenses and performance include sales and cost of sales. Intercompany balances and transactions between segments, if any, are eliminated during the preparation of the consolidated financial statements.

The segment information reconciliation of the total EBITDA of the reportable segments to the Group's profit for the year provided to the CEO for the years ended December 31, 2022, 2021 and 2020 are as follows (amounts in thousands):

	Japan			Korea			Taiwan			Hongkong

The segment assets and liabilities as at December 31, 2022 and 2021 are as follows (amounts in thousands):

	Exporting		Unallocated		Total	
	2022	2021	2022	2021	2022	2021
Segment assets	P 1,963,970	P 2,069,556	P 117,539	P 123,859	P 2,081,509	P 1,704,964
Segment liabilities	P 1,240,996	P 1,326,763	P 175,607	P 187,743	P 1,416,603	P 1,311,542

The total reportable segments' assets and liabilities are reconciled to the Group's total assets liabilities as at December 31, 2022 and 2021 are as follows (amounts in thousands):

	2022	2021
Segment assets	P 1,963,970	P 2,069,556
Unallocated:		
Trade and other receivables	16,873	16,873
Prepayments and other current assets	70,606	76,253
Goodwill	14,521	14,521
Deferred tax assets	15,208	15,880
Other noncurrent assets	331	331
	P 2,081,509	P 2,193,415
Segment Liabilities	P 1,240,996	P 1,326,763
Unallocated:		
Due to a related party	131,846	144,377
Retirement benefits liability	43,761	43,366
	P 1,416,603	P 1,514,506

The amount is measured in a manner consistent with that of the consolidated financial statements.

The reportable segments' assets and liabilities are allocated based on the operations of the segment. The Group's cash, trade and other receivables, inventories, property, plant and equipment, trade and other payables, obligations under finance lease, borrowings and income tax payable were considered as segment assets and liabilities. Trade receivables arising from the exporting operations are further allocated based on geographical location as follows (amounts in thousands):

	Japan		Korea		Taiwan		Hongkong	
	2022	2021	2022	2021	2022	2021	2022	2021
Trade receivables	P14,395	P15,347	P60,342	P64,333	P91,269	P97,305	P302,469	P322,474

	US		Others		Unallocated		Total	
	2022	2021	2022	2021	2022	2021	2022	2021
Trade receivables	P51,745	P55,167	P120,505	P128,474	P15,827	P16,873	P656,551	P699,974

Unallocated assets and liabilities are managed by the central administrative and treasury functions.

The Group does not have revenues from transactions with a single external customer amounting to ten percent (10%) or more of the Group's total revenues.

NOTE 38 – OTHER MATTERS

Supplemental disclosure of cash flow information

The table below details changes in the liabilities of the Group arising from financing activities, including both cash and non-cash changes.

Particulars	January 1, 2022	Cash flows	Reclassification	Interest expense	December 31, 2022
